CHRISTMAS SWEETS.

This year, as the supply of sugar is ample, we may again indulge in some of the delicious home-made candies and cakes. In homes where there is an abundant supply of maple sirup and honey (if you keep a tree and a bee) you are independent, as most dainty sweets may be made from these, Maple sirup makes the most creamy, fine flavored fondant if boiled andisturbed to the soft ball stage. Pour as usual on a marble slab or buttered platter and when cold best to a cream and finish in the usual manner.

Pralines. Boll one pound of dark brown sugar with just enough water to dissolve it. until It threads a fine strand from the end of a fork. Stir in one pound of pecan meats and when evenly mixed drop by spoonfuls on a marble slab or buttered platter. Flatten and round each one and, when cool, take up and pack in a cool place. They keep any length of time if kept dry and cool.

Peanut Candy.

Shell and roll with a rolling pin, one quart of peanuts. To two pounds of light brown sugar add six ounces (twelve tablespoonfuls) of butter, boil stirring constantly ten minutes, counting the time from the first bubble. Add the nuts just before turning out. Mark in squares before it gets hard.

Molasses Candy.

Take three cupfuls of molasses, one cupful of brown sugar, beat three minutes. Boil until it hardens in water, add one tablespoonful of butter, one teaspoonful of soda, and one tablespoonful of boiling water in which the soda is dissolved. Remove from the fire, pour on buttered plates and cool. Pull when cool enough to handle.

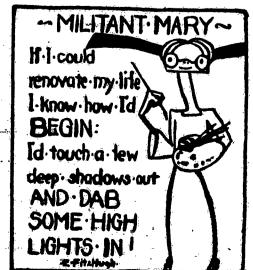

Peanut Butter Fudge.

Place two cupfuls of sugar and twothirds of a cupful of milk in a granite sauce pan, stir until dissolved, then boil until the mixture forms a soft ball in cold water. Remove from the fire. add four tablespoonfuls of peanut butter, stir until melted then beat until creamy. Add one teaspoonful of vanilla and one-third of a cup of seedless raisins. Turn into a greased pan while it is still smooth enough to packnicely. Cut in squares.

Orange Straws.

Weigh oranges whole and use pound for pound of sugar. Peel the oranges and cut the rind in shreds. Boil until tender, changing the water twice and heat gradually to boiling point, then boil twenty minutes with the peel. Remove from the pan and roll while hot in granulated sugar. Then place on paper in the oven to dry. Keep in a tightly covered receptacle.

THE WOODS

POSSESSION.

There's some of us has this world's An' some of us has none-But all of us has got the woods. An' all has got the sun.

So, settin' here upon the stoop, This patch o' pine beside, I never care a single whoop-Fer I am satisfied.

Now, take the pine on yonder hill: It don't belong to me; The boss he owns the timber-still, It's there fer me to see.

An' 'twixt the ownin' of the same An' smellin' of Its smell, I've got the best of that there game, An' so I'm feelin' well.

The boss in town unrolls a map An' proudly says, "It's mine." But he don't drink no maple sap An' he den't smell no pine.

The boss in town he figgers lands In quarter-sections red; Lord! I just set with folded hands An' breathe 'em in instead,

The boss his forest wealth kin read In cent an' dollar sign; His name is written in the deed-But all his land is mine.

There's some of us has this world's goods. An' some of us has none-But all of us has got the woods.

An' all has got the sun! (Copyright.)

THE ROMANCE OF WORDS

"FOOLSCAR,"

THE use of this word to deslignate paper of a certain size dates back to the reign of Charles I of England. This monarch, being desirous of increasing his revenues which had been sadly depleted by extravagance, disposed of a number of governmental privileges, among these the right to manufacture paper. At that time, as proof of the fact that paper was made by the crown, each sheet bore the royal coat-of-arms as a water-mark.

The parliament, under the protectorate of Cromwell, ridiculed the royal house in every possible manner—even going so far as to degree that a fool's cap and bells be substituted for the coat-of-arms. The proroguing of the rump parliament nullified this law, but, meanwhile, the change had been made and the paper used in the parliamentary journals, approximately 17 by 14 inches, retained the title of "foolscap"—the title by which the larger, or legal, sheets, are known to this day, though individual watermarks have taken the place of the original cap and

Keeping Ahead of the President. late James J. Hill, the great railway

builder and owner: Mr. Hill watched his road with microscopic care. It went hard with the section hand who allowed anything to lie around his right of way, or to the station master who showed carelessness about his station.

Once, in making an inspection, the president of the road found a perfectly good railroad spike lying by the side of the track. He sought out the section boss with fire in his eye and showed him the spike. The boss had a quick wit, however, and before the rebuke broke upon him he exclaimed:

"My goodness, Mr. Hill, I am gladyou found that spike! I have been looking for it for nearly three weeks I" to die."

MODERN ADVERTISING

A DVERTISING today is very friendly to women. Women are doing a great deal of it and doing it well. There is no discrimination in that business-at least against woman per se She gets paid for what she does, not for what she is.

There are many sorts of advertising, and women are in all of them. The artist who makes the pictures that make the ad go is about as often a woman as a man. And woman writes as many ads as her brother.

Some women aiready are managing advertising offices of their own, and many are acting as advertising agents. Some confine themselves entirely to one form of advertising, specializing on magazine or newspaper ads, or displays ads. Others take orders from any firm or individual and suggest the medium best suited, afterwards placing the ad where it will do the most good, in the form to which it is bes adapted.

Many of the large firms that cater to the wants of women always have a woman on their advertising staff, for they realize that a woman will understand how to talk to other women in a way to interest and convince them on subjects that are distinctly hers.

But advertising is not a hit-or-miss thing, which you can take up at a day's notice. Like anything at which people carn money, it takes time and hard work and training. There are fundamental principles that must be understood there are intricate questions concerning colors, types, expenses, effects on the eye or the ear, appropriateness. The woman who wants to become a successful advertiser, whatever branch she may choose, ought to know something, at least, of all branches. She should know the cost of producing what she draws or advertising.

Last Night's Dreams -What They Mean

DID YOU DREAM ABOUT MUSIC?

TO PARAPHRASE slightly the poet: When the night is filled with music the cares which infest the day Shall fold their tents like the Arabs and

as silently steal away. For dream music, say the seers, portends good fortune to those who hear the phantom strains. When, through the world of the visions of night, wander harmonious melodies, happiness and money are hovering in the near future waiting for you. It doesn't matter whether you dream that you are producing the music yourself or that you simply hear it—the omen is good. Among other things it indicates that you are shortly to receive news of a cheerful sort about a friend whom, for a long time, you have neither seen nor heard from.

If you are as yet unmarried and in love it is a sign that your sweetheart is kind and true—there is a wedding and happiness ahead of you. To married people it indicates good-tempered Never Let the Skin Become Harsh or children. If you hear some one running over the scales, either on a musical instrument or with the voice, something good will happen to you upon the skin is a lotion made by through pure luck.

ments to play on, a dream-guitar, glycerine softens the skin, prevents singing at the same time, is especially it drying or chapping, helps to prefavorable to lovers, though if you hear vent freckles, makes the skin feel some one else playing the instrument wonderfully soft. The rose water is watch out—you are too susceptible, simply a fragrant medium used to we owe it our loyal support and active Playing a dream-guitar is especially dilute the glycerine. The skin feels recommended to induce happiness in delightfully dainty after it is rubbed the family. A banjo is almost as good with this mixture. as a guitar, though if you simply hear Keep, the skin clean, keep the dithe banjo instead of playing it your gestion right-and forget your comself you may have some slight worries plexion. More harm is done by overwhich will soon be over. A flute fore using cosmetics than by not using tells a birth in the family, and an or-them at all. gan is an excellent omen unless it is a church-organ playing a dirge. In that case you may hear of something that will "make you tired," or of the death A railway man tells this story of the of a relative, say the pessimists. The optimists say a dream-dirge on a dream-organ in a dream-church only

means a slight annoyance soon past. The music from a dream-plane is an excellent omen-marriage for those in love, domestic happiness for the married and thrift and fortune for all, The worst that even the kill-joy oracles can say about dream-music is that if it is harsh and discordant some temporary vexations await you.
