

Delays Are Dangerous

Don't make the mistake of allowing a cold to hang on. As the fact that it lowers your efficiency, the cold contracted now, unless effectively checked at once, may develop into pneumonia or influenza.

Father Mollinger's Famous Herb Tablets

For fifty years have for fifty years been used in thousands of homes to combat colds. A natural, gentle laxative, they keep the bowels and liver open and thus assist nature in throwing off the germs of cold, grippe, influenza and pneumonia. Compounded in accordance with the original prescription of Father Mollinger, these tablets are composed entirely of Nature's pure herbs and contain no habit-forming ingredients. Absolutely safe for adults and children.

The Knights of St. George and the Ladies Auxiliary will have a social in their quarters on Monday evening, Feb. 7th. Pedra and 500 will be played with good prizes for high and low. Those who do not wish to play cards have the bowling alleys at their disposal, which should enable all to pass a very enjoyable evening. Some of those old fashioned fastnacht kuechels will be served with rich coffee, which should also be an inducement.

The funeral of Mrs. Christine Eisensohn took place Monday morning at 9 o'clock from the church. The mass was celebrated by Rev. Francis Hoefen. She was a member of the C. W. B. L., the Women's Sodality and the Rosary Society.

Why It Pays To Use Electric Glue Pots

Being safe and portable, they can be used close to the work, thereby saving time.

They maintain the proper temperature—therefore, they do not burn the glue.

They avoid the damage that results from leaky valves and unions.

They do not overheat the workroom—therefore, they cause no discomfort to the operatives.

They can be operated economically from the standpoint of power costs.

Electric Glue Pots are being used in woodwork shops, binderies, paper box factories—in a word wherever a clean, compact, convenient glue-heating device is necessary.
