**MODERN EQUIPMENT DE-
CREASES HOME DRUGGERY**

The worst part of the housework is the washing, when done in the old way on the rub-board, rasping the dirt and soil out of each piece separately, by hand. If you have a hand machine it will help out, but even then some one must push and pull the handle back and forth, and although it is not hard, it becomes arduous before the family washing is completed. Then the wringer must be turned by hand and this is by far more tiresome than operating the washer.

Hand operated machines have been done away with in the factory, in the office and in the institutions and in fact everywhere. Men now use machinery operated by power. Why should women not do likewise? The "1900" Cataract Washer is so simple in design and construction that no knowledge of machinery or electricity is necessary to produce work of the finest quality. You simply follow our brief instructions for its proper use.

The offer, which the Good House-keeping Shop, 136 Franklin Street, St. Joseph's Parish, of this city make on the "1900" Cataract Washer, is a special liberal offer of monthly payments, which will make you the owner of this wonderfully Electric Washing Machine and Wringer.

**TITAN BATTERIES SERVICE STA-
TION**

Located at 372 South Ave., next to the bridge, in St. Mary's Parish, Titan Batteries are sold by the Titan Batteries Service Station, Main 5218-M. For all makes of car and wherever storage batteries are needed there is a Titan of a type and size to do the work.

Experts say the Titan is the best Battery made and experience has proved once a Titan Owner always a Titan lover.

This is due to the fact that Titan Batteries are the product of an organization carefully built upon successful experience thru every stage of battery development, where there have been no false alarms, for every item in a Titan construction represents true progress.

A big factor favoring Titan is that buying a Titan Battery you are not buying an experiment but every dollar invested in a Titan Battery pays a daily dividend in good reliable service.

A proof of the greatness and worth of Titan Batteries is in the fact that they are in successful use in every climate and thruout the world. Hundreds are in use in the great Northwest provinces of Canada, where winter weather is the most severe, and Titans have also proved their superiority in tropical Cuba, West Indies and far away China. Money spent on Titan Batteries is wisely spent and they are sold in Rochester by the Titan Batteries Service Station, 372 South Ave., next to the bridge.

May we have the pleasure of showing you a G. R. S. the best electric washer ever built? Call upon us.

**THE STORY OF THE FIRST
AMERICAN TIRES**

The Kokomo Rubber Company, one of the oldest manufacturing organizations of its kind in America, designed and built the first American pneumatic automobile tires. The first tires and car they equipped were in the Smithsonian Institution Washington, D. C., with Adam's printing press, Howe's sewing machine, Whitney's cotton gin, and other famous keepsakes of American Industry.

Beside today's giant pneumatics, the first automobile tires compare strangely in structure and size. They show the single tube bicycle tire construction of the early nineties. They have a diameter of 36 inches, while their cross section measures but two. Modern casings of equal diameter are air cushions of the times this cubic content. Neither clincher nor straight side, the first tires were fastened by lugs to the wheels of the old horseless carriage, like racing sulky tires today.

Conspicuous on the sidewalks of these pioneer American automobile tires, this small label may be read, "Kokomo Motor Carriage Tires, Kokomo Rubber Company, Kokomo Indiana."

"Motor carriages" today are conveyances of elegance and comfort. They travel on tires as trustworthy as their mechanism is efficient. For their dependability, their in-built stamina, their continuous service—the expression in product of seasoned experience, Kokomo tires and tubes are called Kokomo Long-Life Tires and Tubes and are sold in Rochester by The Goodmore Tire Company, 565 Main Street East, who also have a branch in the Sacred Heart Parish, located at 1308 Dewey Avenue.

**A FRIEND OF THE WEARY
HOUSEWIFE**

With the approach of really hot weather no housewife feels like doing the family washing herself. In winter when the weather was not so severe this was alright, but now this unpleasant but essential task is better done by experts in this line, with elimination of wear and tear on the clothing.

The Crescent Puritan Laundry located at 1630 Dewey Avenue, in Sacred Heart Parish, this city, is considered one of the best laundries of its kind in this city and anyone having work done there will not likely return to the old fashioned method of doing the Monday wash in the basement.

The love of the mosquito for a daredevil is surpassed only by the love of a fly for a bald head.

In the fifteenth century the term "au-deville" was applied to a certain old Norman folk song.

About 70 periodicals printed in Esperanto, the so-called universal language, are now published.
