CHIROPRACTIC—What It Is.

Chiropactic (Ki-Ro-Prak-Tik) is the Science of locating the cause of disease and the Art of removing it by adjusting the spine, which relieves pressure on the nerves and allows Nature's life spark, or nerve energy, to flow freely to and from the brain.

In adjusting the vertebrae to release the pressure, the Chiropactor uses and needs nothing but his hands. The whole object of this work is completed when this pressure is removed. Nature does the curing.

Fred Lee Bennett, Chiropactor, is located at 221-223 Mercantile Building.

THE NEW CHANNELL IRON SETTEE.

A Settee made of channell iron is being featured by the Reisig Wire Works, 193 South Avenue, Rochester, N. Y.

The Settee is made in three sizes and the workmanship is of the very best. This is the first time a Settee has been made of channell iron and this feature standing alone argues well for the sale of Mr. Reisig's product.

Mr. Reisig has been engaged in the wire and ornamental iron business for over twenty five years and is being warmly complimented on his latest innovation.

AUTO OWNERS

Ever try guessing the time of day? Try it now and then look at your watch. You will find you're wrong every time.

It is just as difficult to guess the speed of your car, but the motorcycle policeman knows your speed. He checks it up on his Stewart Speedometer. Then a little trip to court. A kind hearted judge may fine you only ten dollars and costs five. Think of it for fifteen dollars at the Stewart Products Service Station, 296 East Avenue, Rochester, N. Y., and keep out of court.

The installation is a patented Stewart feature. No perfect round hole required, no special tools for cutting. Simply cut a piece out of the board, the flange covers the rough edges completely.

AUTOMOBILE TRIMMING

"I trim the car, not the owner!" is the slogan adopted by Chas. T. Higgins of 16 1-2 Union Street, Rochester, N. Y., who makes a specialty of automobile trimming.

Mr. Higgins is in a position to attend to the wants of Autoists in this line, as he has an up to date establishment, which can be reached with a minimum of inconvenience, being ideally located.

Motorists are urged to pay Mr. Higgins a call when in need of slip covers, or automobile upholstery work.

THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good

By **JESSIE ROBERTS**

LUCKY STRIKES

THE business of making lucky strikes has by no means gone out of date. It isn't necessary these days to kill Indians or give a dying miner a drink. You can do it in less moving-picture ways than that.

A good idea properly handled has often proved the best sort of a lucky strike.

Take the case of Miss Shaver of New York. She conceived an original idea in regard to dolls. She carried it out to the last detail, as perfectly as she could—and that means a lot. Here is the result.

The dolls found a welcome waiting for them. They were high priced, but they were worth it. And people bought them.

Now there is a little shop working fulltime making the dolls. There is a large force following the designs made by Mrs. Shaver. Money pours in, and it is a good business enterprise—just a lucky strike.

Other lucky strikes have been made by young women in the advertising business. Sculptors have made them with a quaint figure. I know a girl who had a bright idea regarding a department of the store where she works. She heads the department at a mighty good salary now.

Lucky strikes are good things, and we don't all fall on them. But I notice that each one that really brings success is accompanied by a lot of hard work. The lucky striker has not sat around waiting for luck to do the rest.

No. She got busy herself.

THE WOODS

By **DOUGLAS MALLOCH**

THE BIGGER THING.

YESTERDAY I watched an ant
J / A-olin' in the summer sun;
I saw him puff an' pull an' pant
With little burdens, one by one.
A wisp of straw across his way
Once kept him busy fer an hour,
An' ant-miles long he walked that day
To git around a bloomin' flower.

The sand he carried grain by grain—
Great boulders that he had to lift—
An', with his engineerin' brain,
He sunk his shaft an' run his drift.
An' then at night a Bigger Thing,
To which the Little Thing must kneel,
Creation's self-appointed king,
Wiped out the anthill with its heel.

(Copyright.)

Laugh Reveals Character.
There are those who give themselves over to laughter quickly; there are others who hold back to the breaking point, and, if you are trying to make them laugh, you turn with a look of triumph when at last the ice is broken. All of these differing cases broken character, and we are not far from when they say, "Let me hear you laugh and I'll tell you what sort of a being you are—whether you are a good companion or a strenuous one; whether we must take care that you do not get even with us. I'll tell you whether you are cynical, cruel, good-natured, honest or not to be trusted."
