Moving is made Easy by Modern Methods

One of the means of linking communities together in the matter of transportation of household goods and other materials is due to development of the trucking business. A few years ago it was an unknown thing to hear of families moving their goods from town to town thru the medium of trucks and vans, but in these progressive times it is no longer an uncommon matter for persons to ship their entire belongings to their new destination by motor vans or trucks. They are certain to arrive at their destination much quicker than by any other method and with the systematic methods of arrangement one no longer fears about having any broken goods on arrival. This means of transportation has become so popular that trucking firms have had to employ extra men and trucks for this purpose. One of the most live and progressive firms in the trucking business is Merton May, 464 Jay Street, Rochester, N. Y. Here consignments are handled by experienced men and every job is followed right thru until the job is completed. This gives patrons the advantage of speedy transit at a reasonable price.

Make The Home Attractive

One cannot comfortably picture a handsome living room, dining room, in fact any room with its appointments in correct taste, furniture and ornaments of a specific style without adding to his imagination the appropriate enrichment of the walls and casing. For in these it is possible to present to every separate problem the decoration exactly suited to the style or period of a room. By no other practical means can the typical work of an artist or guild of a given period be brought directly into a room, where it is to be placed in association with chairs and table designed by contemporaneous masters of art. If you are contemplating the redecoration of your home and wish it to be done right, you should first consult Frank Seaman, 91 Tremont Street, general contractor with paperhanging and painting a specialty.

This Summer A Victrola

In all the world there is no musical instrument that can give so much real pleasure, to so many people, for so little money, as the genuine Victor Victrola, which can be purchased from Cyrus G. Da Boll, 1284 Dewey Ave. Any one of the Victrolas, small or large, will transform at a moment's notice, the camp into an opera-house, the canoe or yacht into a floating palace of song, the porch of the summer cottage or home into a private ballroom, and best of all, it will help you to live and to forget the heat and cares of these sweltering days. You take no risk with a Victrola, it will give you the same Caruso, Galli-Curiel, Heifetz, the selfsame orchestras and bands that you hear on the concert and operatic stages. Away or at home this vast treasure of music is yours. Let us help you choose an outfit.

Quality In Electrical Construction

We wish to call your attention to the importance of Electrical Construction, and the necessity of having your needs attended to by responsible, efficient and painstaking mechanics, backed by a firm with practical and theoretical experience which insures a satisfactory production. The Sterling Electric Co., 148 Platt St., specialize in Electrical—Dynamics, Motor Repairs, Power Work, Installation, wiring, etc., and with quality as their object and prices that are very attractive. It should prove advantageous to any one to consult them. Estimates on alterations or new wiring, as well as on equipment, cheerfully furnished gratis.

He who praises men and flatters women has many friends.

Getting along on a past reputation gives a half-starved look.

No ray of glory lights the breast that beats for self alone.
