What is Simoniz?
Can the average Motorist Answer the above question?
About 80% of the automobile owners have the impression that just because their car is looking dull and apparently all the life has gone out of the finish, their car must or at least should be re-painted.
In the great majority of cases this is not true for it has been proven that when there is any finish left on the car it can be brought out by Simoniz and just because the finish looks dull and unattractive it should not be assumed that it's a paint shop job.
Simoniz is a product gotten out some years ago by a concern in Chicago and has been used by Mr. Snyder of the Parkway Garage for several years with excellent results and he says that he has yet to find a person who could truthfully and sincerely say that Simoniz did not do all that was and is claimed for it.
Simoniz applied to a new car or a new paint job will protect the finish indefinitely and keep the car looking like new after a period of several years. Of course this does not mean that one application of Simoniz will do all this, but the Parkway Garage has a plan whereby the owner of the car by paying a small sum monthly (less than it would cost to have a car kept washed weekly), has his or her car kept in as perfect a condition as is possible at all times.
The best feature is that Simoniz does not attract the dust an ordinary polish does nor does it get mud spotted so easily for when the job is completed the finish is absolutely dry and there is nothing left to attract or hold dust.
Mr. H. O. Snyder took over the Parkway Garage the first of the year and if you wish to find out just what can be done with the finish on your car, take it to the Parkway Garage, Seneca Parkway and Lake Ave. and they will gladly give you a demonstration.

Quality Meats
While the little things count, it's the "Quality and Service" given by a concern, which establishes it as a success in the business world, this is the reason, we wish to hand this bit of praise to George P. Raetz of the Lexington Market, 1011 Dewey Ave., Rochester, N. Y.
Mr. Raetz recently took control of this market and wishes to call your attention to the fact that he handles only the very best quality of meats and solicits your patronage that he may prove this to you.

George F. Harrington Company
The big increase in the sale of phonographs during the last few years has necessitated that a repair shop come into evidence to take care of all the break-downs on talking machines, etc.
The George F. Harrington Company, 354-368 South Ave., Rochester, N. Y. has a general repair shop for sewing machines, pianos, and talking machines, in addition to the regular shop where first class new instruments are sold. People should patronize this shop, for this reason, one buying a new sewing machine, piano or talking machine here will be sure of expert repair service should the machine or instrument ever be in need of repair.
You can always have your own way if you are making money for the rest of the crowd.
Nothing in nature happens except according to natural laws. Nature has no room for miracles.
