# Important Sale of New Hats at \$12.45

(Manufacturer's Samples)

Because these hats happen to be manufacturer's samples we are able to offer to you for \$12.45. Ordinarily they would be at least \$18 to \$19.50.

They represent the height of Fashion—every model is a dream.

They are all feather trimmed—because that is Fashion's favorite trimming this fall. And such feathers—lovely drooping glycerined ostrich, smart little wings, clever quills, and any number of other feathery fancies.

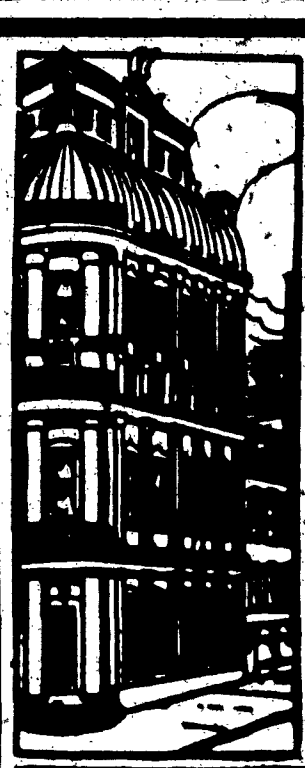

Materials are duvetynes and velvets—and they come in the bright new shades as well as the more conservative black, navy and dark brown. At \$12.45 they are remarkable values.

A little lot of women's summer hats for sport, dress and business wear—hats that originally sold from \$10 to \$25, are now \$5.

—Also a clearance of what we have left of children's leghorn and panama hats for both school and dress wear, at \$2.50 and \$3.

## DOLLARLESS DAYS

Dollarless days are sure to come; days when income stops and outgo increases. It may be in a short time, from sickness or loss of position, and it may last only a few days or weeks. It may be years from now, when age and infirmity make work impossible, and dependence sure. But whenever it is coming, the thought should be an incentive to bring regular deposits here, to provide for any emergency.
