Rochester Millwork Co.
 The industrial, commercial and building interests of this city are indeed fortunate in having located here the Rochester Millwork Co.
 This firm stands pre-eminent in its line and has made good progress since entering the field. The company does a general mill work business—indoor sash, veneered doors, interior finish, stair work, porch work, etc., maintaining a warehouse at 45 Warehouse St., under the management of Daniel F. Jack. All the members of the organization are practical sash, door, and mill workmen having spent all their lives in the business, and Mr. Jack is a man who understands in the various features and problems that are constantly coming before a concern of this kind and gives every job his personal attention.
 The Rochester Millwork Co., have associated warehouses in Cleveland, Ohio, and Buffalo, N. Y., with a large well equipped factory at Albuquerque, New Mexico, where they manufacture doors, windows, mouldings, etc., in soft southern California whitepine. In the Rochester warehouse we find a large supply of chestnut, pine and red gum or hazel interior finish all worked to their special details and all ready to use in the building. They also carry a large supply of pine doors, fir doors, red gum doors, and chestnut doors for exterior and interior work. They have a large supply of windows and are well equipped to take care of any odd sash or windows that are required in the general run of house building.
 Besides the materials specified above, that they carry in stock, they are well supplied with everything else that is required in the house building business. The Rochester Millwork Co., believe in preparedness. It may well be said that the company is just one jump ahead of the procession by being fortified with stocks made up from dependable lumber of uniform high quality.
 Mr. Jack may be reached by phone Main 7491, and will be found at all times in personal contact with the work and supervision of jobs in hand.

Announcement
 Parkway Garage, at Seneca Parkway and Lake Ave. under the efficient management of Mr. H. O. Snyder, is one of the most modern and up-to-date garages in the city.
 One of their most recent improvements is to install a battery charging outfit which fits them to handle all repairs and recharging of all types of storage batteries. This includes electric vehicles and pleasure cars as well as lighting batteries.
 Mr. Snyder states that although there is a new department at their garage, they can guarantee the same satisfactory service and the same reasonable charges that they have always made on their repair work on gas cars.
 It will no longer be necessary to take your battery a long distance in order to have it taken care of properly, and you will consequently save both time and money by having your work done at this garage.
 Arrangements may also be made here for the storage of your battery for the winter, in case you intend to lay it up.
