

Proposed Building for Student Nurses at St. Mary's

St. Mary's Hospital campaign will open March 3d, and continue until March 13th. The amount of money to be raised will be about \$250,000.

The money will be used to construct and furnish a student nurses' home, at the south end of the hospital building and facing Genesee street will be constructed in such a way that additions may be made at any time. The building will have a frontage of 150 feet and a depth of thirty-two feet. There will be an extended foundation, however, making it possible to increase the depth later to fifty-six feet.

The funds will be expended and the building operations supervised by the Rochester men who at present compose the Campaign committee.

The University of the State of New York has notified St. Mary's that if it is to retain supervision of the Regents in the certification of nurses, it must provide suitable living quarters for its student nurses.

Extension of time has been granted the hospital the past few years because of the war and consequent high cost of building. But further extension will not be granted and so the time has come when this project must be undertaken.

A hospital in caring for the sick and injured knows no class or creed. St. Mary's has rendered this service to the community for sixty-five years. It was the first hospital built in this section of the country and this campaign is its first general appeal to the citizens of this city for money for building purposes.

At a dinner meeting held at the Hotel Rochester Wednesday noon by the Executive Committee for the raising of funds for a student nurses' home at St. Mary's Hospital, Bishop Hickey spoke as follows, in part:—

"St. Mary's Hospital has been part of this community for many years, even before most of us were born, and while it has not the attractive site that it had

in the beginning, nevertheless, it hopes to broaden out its service to become, if possible, even a more important and successful factor in the community life of the future than it has been in the past. To care then for these nurses properly is after all only to do a humane thing, especially when we know the important work the nurse accomplishes today in each community.

"The course of training is one which is outlined by the state authorities and which must be followed out as a matter of fact. Hence, we are unwilling that any hospital under the auspices of the church in Rochester should not have a suitable nurses' home for its training school of young women who are to serve this community. Gentlemen, our voice will be the voice of earnest and sincere co-operation to further the cause which is being sponsored by you, a group of men who are giving such valuable time and best efforts toward making this campaign a success."

Bishop Hickey Makes Bath Appointment

Bishop Thomas F. Hickey has appointed the Rev. Augustine F. Temmerman as pastor of St. Mary's Church in Bath and of St. Joseph's Church in Campbell, effective on Saturday of this week.

Father Temmerman, who succeeds the Rev. Joseph S. Cameron, M. R., now rector of Immaculate Conception Church, has been for many years Catholic chaplain at Elmira Reformatory. Prior to being assigned to the chaplaincy at Elmira he was assistant to the Rev. John P. Brophy at St. Monica's Church here. He is one of the most popular of the younger members of the clergy in the diocese and his many friends in Rochester will be pleased to learn of his promotion.

Against the repeated declarations of Leo MacSweeney, of Rochester, that he would not again be candidate for the state president of the American Association for Recognition of the Irish Republic, he was again elected state president at the state convention held in Utica on Wednesday. That his service is regarded highly was evidenced by the unanimous demand for his re-election.

Archbishop Curley, of Baltimore, Md., will receive the pallium on April 27th. This will be the first time this ceremony has taken place in Baltimore in 44 years.
