Your Plumbing and Heating is properly installed, it will add health, comfort and appearance to your home

We Know How to Satisfy

HOWE & BASSETT CO., Inc.
23-25 STILLSON STREET

The Eastman School of Music:

A notable Howe & Bassett Co. installation is that of the Plumbing, Heating, Power and Vacuum Cleaning Systems in the new Eastman School of Music and the Theatre. The entire equipment constitutes one of the largest of its kind in this city.

The Heating Plant calls for 380 H. P. and one 205 H. P. water tube boilers, fitted with mechanical stokers. A steel tramway furnished with a bucket and electric hoist carries coal from the coal room and deposits it in the bunkers above the automatic stokers. A large tunnel extends from the Power House under Swan St. and connects with the main structure. Through this tunnel runs the high pressure steam main, returns, hot and cold water pipes, etc. Six large supply fans will supply through air washers 14,000,000 cu. ft. of humidified clean, warm air per hour to the different parts of the building and three main exhaust fans will relieve the impure air. There are approximately 600 direct radiators (35,000 ft.) in addition to the indirect heating by fans, each radiator to be controlled by automatic valves, which in turn are controlled in each room, all operated by compressed air. Return traps are used on all radiators, returns, and the mines, drips, included in the Power Plant equipment are two 12x18x20 vacuum pumps and two 12x12 boiler feed pumps.

The Plumbing contract calls for 120 vitreous china lavatories, 33 porcelain and 18 drinking fountains, 12 for all shower baths, 37 urinals and 102 water closets. The urinals and water closets will each have a local vent and will be connected to three separate vent fans at systems. All steam, return, water, and all other piping will be furred in the walls and ceilings unexposed, except in a few unfinished rooms in the basement and attic.

This structure when completed will be one of the most beautiful in the United States from a point of architectural design and interior decoration, and a wonderful gift to the musical world and the City of Rochester by Mr. George Eastman.

The Ruth Electric Company a Growing Firm

March 15th, will signalize the acquisition of another branch to the Ruth Electric Company to be located at 57 Clinton Avenue, North.

In accordance with their customary public service it is their desire to announce to the public that, like other stores, this one is to carry a very complete line of electrical appliances and household apparatus including electric irons, washing machines, vacuum cleaners, etc.

An added feature of the Company is its introductory service in wiring. Wiring contracts will be cheerfully estimated and work guaranteed.

Coal May Become Scarce

It is always desirable to have sufficient coal on hand to provide for any temporary emergency which may arise, such as blockading of the railroads or a temporary stoppage of the mines.

There should be a certain amount of supply of fuel ahead for all purposes. The fact that on the last day of March the agreement between the operators and miners expires, makes it imperative for all thoughtful people to see that they have sufficient coal to last until the month of April.

J. M. Reddington Coal Dealer at 99 Main St., West, will see that you have prompt and courteous attention, if you either call or telephone your order to his office—Phone Main 390.
