

2,500 Delegates Meet To Discuss Problems Of Catholic Education

(By N. O. W. O. News Service)
Philadelphia, July 21.—The problems affecting the schools of approximately two million children whose lives are being exposed to high ideals in America and the evils of Communism try in more than 100,000 Catholic schools and the United States organized by the twenty-five delegates to the national convention of the Educational Association of the last week.

Announcement of the formation of the Right to Life in Shahar, with a University representative of the Association, with an anti-abortion has been made in the United States. The speakers included the Rev. John J. O'Connor, Bishop of Boston, the Rev. John J. O'Connor, C.S.C. News Director, and the Rev. John J. O'Connor, C.S.C. News Director.

Parliament shall consist of a Chamber of Deputies and a Sen-

"Freedom of conscience as the free profession and practice of religion are inviolable rights of every citizen, and no law may be made either directly or indirectly to establish any particular religion or to restrict the free exercise thereof, or give any preference to any one sect on account of religious belief or religious status, or affect prejudicially the right of any child to attend a school receiving public money without attending the religious instruction at the school, or make any discrimination as respects state aid between schools under the management of different religious denominations or divert from any religious denomination or any educational institution any of its property."

Denominationalism in education is here fully recognized. A guarantee is therefore afforded

against secularization of the schools—a process which has been carried out to a dangerous and mischievous extent in other countries. The proviso that discrimination shall not be made "as respects State aid between schools under the management of different religious denominations" is extremely important as affecting one of the greatest teaching orders in Ireland, the Christian Brothers. In the past, discrimination has been made against the Christian Brothers in their primary schools. They were excluded from participation in State grants simply because they insisted upon exhibiting emblems of the Catholic religion in their schools. This grievance, arising from a Catholic country, came under the Free State Constitution he righted.

Monsignor Mahoney Consecrated In Rome

Glasgowmen are by statute considered ineligible for membership in local bodies such as county and district councils. In respect of membership in the Irish Parliament there is no such qualification. So far as the Catholic clergy are concerned, while they have objected to the slur implied in exposure exclusion, they are not disposed to participate as candidates in parliamentary elections.

It is not yet known what attitude the Irish hierarchy may take up in regard to membership of the Free State Senate.

Monsignor Mahoney, during his years of service as spiritual director of the American College here has come into contact with practically every notable prelate of the United States and he has visited that country practically every summer since he took up his residence in Rome.
