Qualtop Beverages

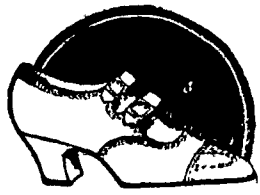

Made in a Sanitary Plant

The lubricating oil that you use in your motor is of vital importance to satisfactory performance and economical operation of your car. By using MONOGRAM lubricants you insure complete lubrication and freedom from carbon trouble—You will notice the difference when your motor is running on MONOGRAM.

"ONE OF THE GREATEST HELPS OF TODAY"

Our Slogan, "No job too big or too small." H. B. Francis, Proprietor of the Rochester Brazing and Welding Co., feels that after being in business twelve years, he is coming more to the front and before the eyes of the public today due to the fact that through the efforts of expert help, automobile owners do not have to wait endless days while different parts of machinery are returned to the factory, but when brought to us at 236 Mill Street these broken parts can be welded together and had almost immediately.

We make a specialty of welding and brazing of steel, aluminum, bronze and brass. Call Stone 3077, where welding means quality, service and satisfaction. Scored cylinders, water jackets, brazing, welding in all its branches. We are in a position to weld any metal in any size by oxy-acetylene or electric welding. Our complete knowledge of metallurgy of welding with an added attraction to a home and our twelve years of experience, place us in a position to guarantee our work.

"ATTENTION FARMERS"

The farmer of today has a life worth living by the modern farm implements that have been patented and the up-to-date farm supplies that are now on the market. Farm life is no longer drudgery. We carry all of the latest supplies and we are very anxious to show them to you and help you in your selection of same. We have an established business, and can sell you the best. We will make no mistake in letting us supply your needs. Our books stand inspection and our files hold letters of recommendation given by your brother farmer. "Drop in" and "see us." Just Stone's throw from Main Street, 42 1/2 Stone St. Burr & Starkweather.

FIRST CLASS SHOE REPAIRING

Do your feet grow very tired when you do your shopping? Have you looked at the heels of your shoes or slippers? Better look, and bring them to me, as I know where the trouble lies. Run over heels; they the greatest injury to your feet and a blot on your appearance. What spoils a well dressed man's

woman's appearance more than poor, rundown shoes. It makes a laughing-stock out of your good clothes and ruins your feet. Bring in those shoes and slippers, and I will repair them so they will look like new. I try to please all and to do your work in the least possible time so that you will call again.

John Posiva, 600 Portland Ave.

"20 YEARS EXPERIENCE"

The old saying, "Wine improves with age," this applies to the business ability of M. C. Lewis & Company, located at 368 North Water St., Rochester, N. Y. In our many years in the business world we have climbed to the top rung of the ladder of success. Roofing of all kinds is one of our accomplishments. Genuine rubber asphalt, which stands up to all sorts of weather conditions. Slate which has grown popular with a great many people building homes. This is mainly draws the attention of the passerby. Then the tin roof is another one of our studies in the topmost covering of a building. We are often called upon to put tin roofs on those summer camps at the lakes. They are better and do not need the constant repairing that a wooden roof would call for each

year. We not only do roofing but are eager to interest you in Ajax and Norman late farm supplies that you can call and inspect. Furnaces which you can call and inspect. After your selection a been made, our man will start at once to install. Do you need any repair work done on your furnace? Now is the time to place your order. No matter what the kind, it cannot stump us. We have made a study of them all. Call us, Stone 4902 and leave your order. Experienced men are employed in this establishment and we can handle all orders. Even the above does not cover all we can do for you. Gutters need repairs, perhaps they are badly rotted, if so you better have them attended to at once as they only give an untidy appearance to your home, and after a heavy rain storm your are apt to find along side of your house deep gulleys in the earth caused by the overflow due to the condition of the gutters. Conductor pipes also need attention once in awhile. They cannot last forever. Call us and one of our men will come and give you an estimate on your work. No time like the present.
