The Galvin volunteers got the fruit to market, and many Americans had supplies who, but for Mr. Galvin, would have been without.

Another public benefaction promoted by Mr. Galvin was the dimer to the unemployed in the winter of 1920-1921. Mr. Galvin, with the assistance of Thomas A. Jenks, fed thousands.

Patrick H. Galvin was born in Rochester, March 4, 1881. He attended school until he was IZ yours old. From then on until he was a voter he was in turn newsboy, farmer's helper, athletic director and newspaper man In 1906 he attracted public notice by championing the cause of the Independents.

Those Vandal Tourists. Indignation has been aroused th certain circles in Switzerland, reports the Geneva correspondent of the London Daily News, by the vandalism of tourists in destroying the flora of the Alps. Some of the flowers are becoming more and more rare, and lovers of the mountains have been pained to find on their excursions thole roots dragged from the soil and lying dead.

This is especially the case with the edelweiss, and the mountaineer writes from Gryon to the Tribune neve pointing out, that on the Arete d'Argentine, one of the rare spots in that neighborhood where the plant still blooms, many roots were found pulled up. The edelweise is somewhat difficult to pluck, and those who mathet It should cut the stem of the flowe with a knife, so that the root may be left to flower again next year for the pleasure of other tourists.
