

The Shadchan's Deal

MORRIS SCHULTZ

...the Jewish marriage broker was chuckling as he went down the street. "Such a fine young man," he muttered, "and just the husband for Bessie Greenberg. I wonder I didn't think of him before."

GOT NAME FROM TROJAN KING

History Professor Says Britain Was Ancient Land Before the Landing of the Romans.

Professor Gordon, Merton professor of English literature in the University of Oxford, lectured to the English association at the London School of Economics on "The Trojans in Britain," and the report of his talk given by the London Morning Post, sets forth some statements new to the general public.

BANANA INDUSTRY IS YOUNG

Importations Began in 1870, and Now Fifty Million Bunches a Year Are Brought Here.

How the dietary of a people can be changed by modern transportation methods is shown by the banana industry, writes Edwin E. Slossop in the World's Work. In 1870 Captain Bowen, coming back from Jamaica on his schooner, brought to Boston a few bunches of bananas as curiosities.

Telephone in Bathroom

For years hotels have been competing with one another to provide the ultimate in a guest's comfort. But it is only recently that anyone had enough imagination to think of anything so sensible as a telephone extension in the bathroom.

Complains Air Has Been Stolen

The air is free, however much the rest of our environment may be in the possession of other folk, is a comforting thought that may now be denied to us.

New Menace to the Automobile

In the Fresno court a man is being sued for damages as a result of failure to hang a tall light on a black heifer. It seems this heifer had developed a penchant for wandering about country lanes and roads after curfew time and a stranger in an automobile bumped into her.

How Canada Fights Grasshoppers

It is estimated that 1,000,000 acres of grain in the province of Saskatchewan, Sask., were saved by the grasshopper campaign, according to the tenth annual report of the field crops branch of the department of agriculture.

SERENADE, OLD AND MODERN

Present Idea Differs Largely From That Which Many Older People May Remember.

Time was when serenades were a joy to the heart and ear. Everyone was pleased, excepting a few unromantic fathers who grew a bit fatigued after the fifth or sixth one of an evening.

Concerted Deity

The young minister went walking with his small daughter one afternoon. As he turned toward a gypsy encampment his small daughter resolutely refused to go that way.

Fog Fans in London Hotels

With the coming of the first of the winter fogs in London, which often make it impossible to see across the street, the problem of how to minimize this necessary, or unavoidable, evil in the great public rooms of hotels has exercised the ingenuity of the managers.

Birds Make Work for Plumbers

A plumber working on a stopped-up pipe to the kitchen sink at the residence of J. R. Dicks, Plant City, Fla., discovered that the pipe had been clogged by pecan nuts dropped in the top of a vent pipe by birds.

"Monitors" Employed Against Indians

In the '80s the stage ranches in Kansas, where horses were changed and drivers cared for, were much harassed by Indians. Stables were fired and women and children captured or killed.

Cow's Peculiar Stomach

A peculiar digestive system enables cattle to use coarse feed called "roughage," which would not be suitable for feeding horses or other farm animals.

Electrifying War Vessels

The electrification of warships is now regarded as carrying with it unquestioned advance in efficiency. This new mode of naval propulsion is less than ten years old, for it was in 1913 that the collier Jupiter, the first American warship to be electrified, was commissioned.

CUTTING TO BE SUPERVISED

Government Experts to Overlook Vast Logging Operations in the Sierra Mountains.

One hundred and sixty-seven million feet of timber were recently sold on the Plumas National forest, California, according to an announcement made by the United States forest service. The timber covers about 14,000 acres in what is known as the sugar pine-yellow pine belt in the heart of the Sierra mountains of California.

Electricity in War Vessels

The electrification of warships is now regarded as carrying with it unquestioned advance in efficiency. This new mode of naval propulsion is less than ten years old, for it was in 1913 that the collier Jupiter, the first American warship to be electrified, was commissioned.
