Moving is taken care of by expertly careful men, all trained in their particular line of work. Your goods are transported in padded vans, especially equipped, be it a long or short distance.

The most important reason you should employ The Best Carting Co. is that they insure all goods extra. This is of course a great advantage to the mover, particularly when moving to any great distance your risk is practically nothing. **THE BEST FLOORS.**  
Are you planning that new house to be started this spring? Have you planned to have the very best floors laid in that house? But we take it for granted you are, and we recommend Leonard E. Smith to do that part of your building for you.

Mr. Smith has long been in this business and does the very best work at the best possible price. He specializes in fine hardwood floor work, but will also take care of stairway and make it fit in with your scheme. Mr. Smith does carpenter work except that which has to do with floors and he'll do it with his own hands. He'll also take care of your stairway at any time.

Why don't you give him a call at his place of business, 147 Hesselwood Terrace, or better yet, phone him at Stone 1292-J, and he will be glad to give you an estimate on your floor work and the approximate cost to you.

**An Amazing Mistake.**  
After a whole day of golfing and an evening of dancing, Myra's skin was irritated from the combined effects of sun and dancing. She liberally applied "cold cream" to her face and neck, but it did not give her the relief she needed for a good night's rest. In a short time, however, her face began to feel stiff and drawn. "At last," Ruth thought, "my skin has come I have paralysis!"

Her nervousness increased when her fingers became unmanageable and her skin began to crack and seep. She hastily turned on the light and found her face alarmingly wax and shiny. What could be the cause? Finally she rushed for the tube of cold cream. It was labeled "Library Paste."

**Electric Dogs.**  
The electric dog that will follow a lantern in the dark—the mechanical curio constructed by John Hays Hammond, Jr. has a rival in French electric dog that will jump out of its kennel when a whistle sounds.

The Hammond dog is controlled by selenium cells. The amount of electricity that will pass through selenium varies with the amount of light shining on the metal. With a selenium cell for each eye of the dog and a small electric gear inside the top of the dog will steer its course so as to have an equal amount of light on each eye which means that it will keep its head toward any light. Storage batteries and a motor, or clockwork, may be used for moving the dog.

**THE BEST ROLLS.**  
Have you ever tried any of Brown's bakery rolls? They're the best ever. Brown's bakery is owned and managed by M. E. Brown at 422 Genesee Street. **SHOULD HAVE KNOWN BETTER**  
Physician's Small Daughter Fails Called Upon to Point Out Where Daddy Had Erred.

The secretary to a prominent physician and the woman were out riding. "Any interesting patients this week?" the woman asked. "No. They were all really ill this week," said the secretary, but Myra is more interesting than ever."

"Myra?" "Oh, yes—I thought I'd told you about her. She's the doctor's five-year-old daughter, and she's as pretty as a picture and has an angelic disposition. She's simply mad about her baby brother, who's not quite six months old. This morning the baby was having a terrible crying spell, and the doctor left his office to go upstairs to see what the trouble was. I heard Myra at the foot of the stairs saying: "Daddy, brother's hungry, very hungry."

"A few minutes later the crying ceased, and I heard the doctor coming down the stairs. Myra must have been waiting for him, for again I heard her little piping voice: "Daddy, did you give him something to eat?"

"Sure," laughed the doctor. "I gave him a ham sandwich."

"Oh, daddy, you shouldn't," shrieked the child. "Don't you know the mustard will burn him?"—Chicago Journal.  
**Astor's Action Appropriate.**  
Vincent Astor of New York city, a direct descendant of John Jacob Astor, who founded Astoria, Oregon, as a fur trading post in 1811, wired the Astoria Relief commission \$5,000 for its fire relief fund. Astoria was the first settlement in the Columbia River valley and was recently swept by a disastrous fire.
