Go to the

Rochester Business Institute

for a thorough business training. The training that has placed thousands in responsible positions in the business world.

172 CLINTON AVENUE, SOUTH

HAVE YOU HAD YOUR SPRINGS INSPECTED YET?

You'll never realize what "Perfection" Spring Service is until you've tried it. If you can't spare your car during the day we'll do the work at night.
Springs need looking over once a year at least, particularly after the bad weather of winter and spring. Attention now means comfort and safety thru the season. Drive in. No good putting it off.

[illegible] and Storage Co. 763 Main Street West.

New Spring Stock in the Hardware Business.

Mr. Martin Van Dussen, generally known to Rochesterians as just plain Van and who is located at Cor. North and Lyndhurst St. notifies us that his spring stock is gradually arriving and that now he has a very new complete line of screen doors and windows. If your screens are worn out it just makes your whole house look shabby, so before the spring rush starts you had better order new-ones. Van can fit you out at the best prices in the city.

Nearly every one who lives in this 'Flower City' and who has the least bit of ground to cultivate has a flower or vegetable garden. The new stock of garden supplies has arrived at this hardware store, go in early and select just the right tool the one that you were intending to get all last year and did'nt. Van will be glad to help you choose the right one and it will be of the best make and Quality.

That this store is on the job and up to the minute is proven by the fact that they are already prepared for the spring rush, while many other dealers in the city have only began to think about it. Architects, Builders, and large contracting concerns find this store a mecca for their hardware supplies. Give Van a try out.

American Explorers Helped.

The British occupation of Palestine to the present time has proved of greater usefulness to American explorers than to those of the mandatory power. The work at Beisan is only a commencement of American researches in the Holy Land. The famous historical sites of Taanach and Megiddo have been allocated provisionally to two other American universities; while a third university, that of Harvard, has obtained a renewed concession for the site of Samaria, where, previous to the war, they had disclosed imposing Roman ruins of the period of Herod, and earlier remains down to that period in Jewish history when Ahab first established on that site the capital of Israel.

While British universities have been slow to respond to the great opportunity which now lies open, there is, at any rate, much satisfaction to be derived from the increasing activity on the part of American colleges. Harmony and enthusiasm prevail, and the friendly rivalry thus established is a healthy and helpful stimulus.

Contented Cows.

"Hawkins told me about following Corot in the fields when he was painting. One day when the master had made a particularly beautiful landscape, with cows browsing in the foreground, Hawkins objected to the fact that Corot had painted in a pond when there was really none in sight. 'My cows will be in my picture for a thousand years,' he answered, 'and I put in the pond to give them some water.'"—From "Seven to Seventy," by Edward Simmons.

Wallace Electric — Guarantee Leisure, and Economy — The priceless gift of Thor efficiency.

Are you considering buying that new Washing machine? Do you know where you can get the best bargain? Drop in to the Wallace Electric Co. Inc. located at 405 Main St. East. This firm has been in buisness at this address for two and one half years and have established the motto 'Quality Goods and Extra Service' and they not only have chosen this motto but live up to it and have built up a large and prosperous buisness by it.

They handle the Thor products including the celebrated Thor electric Washer and also the Thor Ironer. These are manufactured at Chicago and New York by the Hurley Machine Co. who for 17 years have manufactured the Hurley Washer and have made during that time over 1,000,000 washers and over 750,000 of these are in use today, Don't you think that an excellent record and proof positive that this is the only Washer? One housewife who uses a Thor, made this estimate of the saving of the machine.

Use to pay,	
Laundress Wages 11 day	$3.00
Her car-fare	.14
Her meals	.60
Damage to clothes	.75
Cost for day	$4.49

Now she does her own laundry work with a Thor No. 25 and it costs her 3 cent an hour — and she can iron the same day. If you will drop in to the Wallace Store they will gladly give you a demonstration from their large assortment and show you why the Thor is the best buy. How easily operated it is and how it saves not only clothes, but time and money and life, and gives you unlimited service year in and year out.

Added to the facts about the washer you are getting the Best Service when you buy of this firm as they guarantee their Service. The Wallace Electric people are the sole agents for Thor products.

Wireless telephone instruments will be installed on a number of important German express trains, and receiving instruments will be placed in hotels and embassies, according to an announcement made recently. Experiments conducted in a moving freight car have shown that the wireless system works well, the men engaged in the testing of the instruments being able to hold conversations with friends in Berlin. The tests were made under the observation of engineers, military attaches and the diplomatic representatives of the United States and Sweden.

THOR Quality is high
THOR Prices are Low

Some people think the Thor must be high priced because it is the acknowledged leader. It is the most popular machine on the market — over 750,000 have been sold — but it is not high priced. You can get a genuine THOR for $125 — much less than many machines.
Arrange to see the THOR at work today — find out why it is the best buy you can make.
