ELECTRIC LIGHT WIRE

of standards of the depart et of commerce had perfected and of employing electric light in place of aerials, considerable imenting has been done by vari emateurs, some of whom have had thek while others succeeded in blowing a large number of

greations to amateurs:

First-Successful results have been blained so far only with audion bulb

light socket to the table where the amidships and sink her." The Merinstrument is located and should rime did not reappear. terminate in the fuse mentioned above. and from the condenser to the anten- war was over.-Detroit News. ma binding post of the receiving set.

I In sets where the condenser is built into the instrument the connecion from the fuse is run directly to antenna binding post. All other connections should be exactly the same as for conventional overhead eerial receiving.

Screw the attachment plug into

half way around. order to avoid shock."

## SHORT FLASHES

pass station on the Great Lakes was recently installed. Other stations will shortly be in service when the "graveyard" of the lakes will have lost its terrors. It is claimed that John Hares Hammond, Jr., and Dr. E. L. Chaffes have invented an applimace that insures secrecy in wireless. The system is based on principle of producing characteristic waves to which only

are responsive. Secretary Hoover's force of ether cops" may take the form od special government detecting stations where aerial compasses could be arranged so as to detect the direction from which interruptions come. By a series of relays, the government station nearest the violating amateur could be notified and

the source of trouble stopped.

especially equipped receivers

Now the fans in England are having a hard time with their air. According to a report from migiand there are only 8,000 anthorized amateur operators in the United Kingdom. The Londen Daily Mail states that the reason for the art's tardy crowth is the fact that "hampacing and senseless restricdone in this country prevent wireless amateurs from getting peactice. The old fogles of the my and navy air forces are straid of the amateurs and use their influence in having the perconce authorities impose imsible and vexations restricthat limit the field."

By the way April 5, at St. Mary's Hospital we used to have a fairly compression ber held day end-hishons denosed several of the heavise central library. But when ed. It consequently appears that very objection reised to an argument for the pickle as a beautifier indicates canons of discipline. that it may be not only that but a lifesaver as well.—Springfield Union.

Borrowed His Way to Riches. steel business. His wealth increased from nothing to \$50,000,000. His climb was litustrated by a friend who crown in prison. told of the career of a man who

owned a large chicken farm. "How did you happen to start in the chicken business?" somebody asked him.

"When I was young I was out of work for a spell," he answered. "So I borrowed a hen and a dozen fresh eggs from a neighbor. I set the hen on the eggs and all of them hatched. Then I waited unti the hen had laid a dozen eggs. I took the hen and the dozen eggs I horrowed back to the owner. He had what I borrowed from him and I had a dozen chickens. The dozen chickens started my farm."

Phinns horrowed 25 cents to advertise for a job. Later he borrowed \$800 to enter the partnership which made him rich.

The most important of the famous Parthenos (the Virgin), the patron goddess of Athens, which stood on a correction, reading as follows: the Acropolis. In 1801-3, Thomas, Bruce, seventh earl of Elgin, British ing the derivation of the name 'Micambassador to the Porte, collected mac' in yesterday's issue. We now he saw heing daily destroyed, and in 1816 told them to the British government. They are now in the Eigh Scotth." foom" in the British museum. The collection includes sculptures, not only from the Parthenon, but from the Brechthelon and elsewhere, and casts from marbles which were left in situ: These casts, compared with later casts, show that damage to the originals went on after Lord Elgin's time. The sculptures of the Parthenon are both traditionally and generally perately: "Will you marry me?" held to be the greatest sculptures ever
