Come and See Us
Come and see me, Wreford Boon, I am something new in your neighborhood and want to ask you a question. Why go downtown to do your trading? If you call here and see my new, bright, clean meat market and see the display of meats and fish you will certainly call again because I am so sure of the good quality of the meat I sell I hope to obtain your patronage.

I have placed my market in a location where I think you have been hoping one would open for a long time. One tires of trading in the same place and likes to try a new place and feels better satisfied with food bought at a new establishment. I do not say that I am perfect, but say this that I am starting out with new ideas and have profited by other's mistakes and hope to prove to the public at large that I have the best line of goods.

Pay me a visit and give me an order and if I can not please and satisfy you, you need not call again. I however am conceited enough to know that once you try my meats I will see you often in my store. It has always been my aim to please and I will leave it to you as to the quality of the meats I sell. Call and see me at 530 Chili Avenue.

High Prices.
Edgar Selwyn, the New York Times reporter, was talking on the Olympic about the swimming pools that are a feature of the newest and most luxurious liners.

"For those swimming pools and open-air restaurants and high fairs," he said, "we passengers pay so much, goodness knows."

"To tell the truth, I am rather in sympathy with the plump, dark lady who stood on the marble brink of a liner's swimming pool the other day and screamed angrily at her dark, plump daughter:

"Confound dot girl, she never learns noddings! Minna, Minna, swim in der deep water, und get der vort' of your money!"

Sugar From Sap of Palms.
Various tropical palms yield a sugary sap which is employed by the natives for making sugar and toddy. A summary of information relating specially to the Nipa palm from this point of view is given in the Bulletin of the Imperial Institute. This palm grows in the muddy estuaries of rivers throughout the eastern tropics. The juice, which contains about 15 per cent of sugar, is obtained by removing the flowering shoots and collecting the sap which escapes. If desired, the juice can be fermented for the production of alcohol.

It has been estimated that 23 hundredweight of sugar, or 200 gallons of 95 per cent alcohol, could be obtained annually from an acre of swamp land planted with Nipa palms. The tree occurs over extensive areas in British North Borneo, and the authorities there are considering the question of utilizing it as a source of sugar and alcohol.

Best Book Was Labor of Love.
"Our Edinburg's Drovers," which Thomas Nelson Page considered the best picture of life in old Virginia which he had ever drawn, was written to obtain money with which to purchase his engagement ring to the lovely bride of his youth, Anne Seddon Bruce, daughter of Charles Bruce of Stanton Hill, Charlotte county, Virginia.

The description of the heroine, although not identically the same, was that of his fiancée, while the setting of the scenes was the home of Mrs. Bruce's brother, the late Seddon Bruce of Richmond, which she often visited in her girlhood.

Get on Her Nerves.
"Why did you rise up and hit that man who was complaining about the discomforts of traveling in a Pullman?"

"Less than a week ago," said the belligerent person with a shudder, "less than a week ago I completed a trip across the continent in a flivver."
