SHAKESPEARE "UP TO DATE"
Soviets Seem to Have Succeeded in Making Burlesque Out of Tragedy of "Hamlet."

Now it is Shakespeare who has fallen beneath the drastic hand of sovietized Russia; and, as a result, a sovietized "Hamlet" is in rehearsal in a Moscow theater and soon is to be presented for the detection of such as care to view it.
The play is the result of action on the part of the commissariat of education, and it is to be produced by the orders of that committee by the state institute of Theatrical Art.
Judging from the first reports, the performance is something in the nature of a burlesque. Hamlet is not a Danish prince, but a prominent communist leader fighting against the bourgeoisie and capitalism. The familiar speeches and soliloquies have been rewritten and put into revolutionary rhetoric. Lloyd George comes in for his share of attention. The actor playing the role of Polonius will make up to resemble the former premier, and his speeches will be based on the outstanding statements made by Lloyd George during the last five years.
All in all, sovietized "Hamlet" smacks of the Shavian school of the modern drama.
