**HAVE YOU HAD YOUR SPRINGS INSPECTED YET?**  
You'll never realize what "Perfection" Spring Service is until you've tried it. If you can't spare your car during the day we'll do the work at night. Springs need looking over once a year at least, particularly after the bad weather of winter and spring. Attention now means comfort and safety thru the season. Drive in. No good putting it off.

**New Summer Stock for the Hardware Business.**

Mr. Martin Van Dussen generally known to Rochesterians as just plain 'Van' and who is located at the corner of North and Lyndhurst Streets, notifies us that his early summer stock has arrived and that now he is well stocked with new screen doors, windows, and also screening by the yard. He also says his prices are the best in the city. Nearly everyone who lives in the 'Flower City' and who has the least bit of ground to cultivate has a flower or vegetable garden. The new stock of garden supplies here, go in and select the right tools for your gardening. Van will help you choose the right ones and they will be the best make and quality.

That this store is on the job and up to the minute is proven by the fact that these summer supplies are in and ready to be sold. Architects, Builders, and large contracting concerns find this a mecca for their hardware supplies. Give Van a try.

**Florists Shops are Masses of Bloom.**

The Shop of Geo. Crooke and Company at 1146 Mt. Hope Ave., is no exception to the rule, for this shop has a full supply of all kinds of flowering plants and vines. They carry these plants especially suited to growing in boxes for the porch as well as those for the grounds surrounding your home.

Mr. G. H. Elliott and Mr. W. C. Westfall who run this up-to-date florist establishment are experts in this line of work and carry on a large business in this section of the city.

Call personally and make your selections for lawn porch boxes or grounds and you will receive the best of attention.

**Fresh Air Cures Colds.**  
If you have a stuffy head, cold, lie down in a room with windows open—covers enough to keep you warm—and consciously breathe deeply for ten to fifteen minutes. Try to fill your lungs from the bottom up, as it were—then force the air all out, and start again. You will find the stuffy feeling vastly relieved. Headaches, that "tired feeling," indigestion, melancholia, constipation, and countless other disorders, may be benefited or entirely relieved. If you will but make a real effort to help yourself!  
Without sufficient oxygen we stagnate and become swamped in our own waste products. If you would be well and alert and capable of doing your best day after day—learn to clean your own blood stream by the daily use of air—it's free, too! Just try it.—C. Richmond, D. O., in the Health Bulletin.

**Doing the Impossible.**  
The mothers looked upon Alexander and saw that he was good. He had money, power and position, so they added their love of bygone days to the almost complete knowledge of their debutante daughters and the campaign was launched.  
Athletic girls, domestic girls, beautiful women, soul affiliates and working girls tried their wiles, but he was invulnerable.

Then he went to the town where he was born to eat his Thanksgiving dinner with his old-fashioned mother. The teacher of the village school boarded with his mother, partly to keep her company. The little teacher did not know Alexander could not be caught. So they were married on Christmas Eve.—Judge.

**Personal Etiquette.**  
Kris—Does Stuckup believe in supreme being?  
Kross—You would think so if you heard him singing his own praise.—New York Sun.

**The New Washer—The Aerobell Electric Vacuum Washer.**

The Wallace Electric Company Inc. who are located at 405 Main street East and have been in business at this address for over two years and have built up a large business in the city, are introducing the Aerobell electric vacuum clothes washer. If you are considering buying an electric washer they recommend this make.

The Aerobell embodies the improvements for which you have been waiting; Aluminum wringer frame, new type safety release, big round copper tub with full opening and only three legs for steadiness on uneven floors.

Air pressure and suction actually draw the soapsuds through the fabrics. There is no belt and the mechanism is under the tub out of the way. It is built to stand years of hard work, and is designed to reduce effort to a minimum. The capacity of the Aerobell is 8 sheets or their equivalent.

If you are considering washing machines call at the Wallace store on Main st. and they will be glad to give you further information concerning this new appliance as well as many others which they carry. This firm guarantees its goods and besides give a super kind of service to their customers. Their telephone number is Chase 1633. Their ad appears in another section on this page.

**FEW WALK IN STRAIGHT LINE**

Physical Imperfections Cause Pedestrians to Take a Zigzag Course in Their Journeyings.

How do you walk? Do you proceed in a straight line or zigzag from side to side?

If you watch a number of pedestrians you will find that nine out of ten bear to the right, return to their proper course, and then start swerving to the right again.

This is because our right leg is more fully developed and stronger than our left. A left-handed person usually swerves to the left in walking, for in his case the left side is the more powerful.

If a man is slightly deaf in his left ear he will swerve to the left. If his other ear is affected he will go in the opposite direction. This is because the deaf stoop slightly on the side on which they can hear least.

Short-sighted people will swerve to the side on which they have their worst eye. Even people who are perfectly well physically and whose bodies are evenly developed zigzag in their walk. This is because their thoughts wander and their legs have not sufficient guidance.

**No Other Way Out.**  
A banker many of whose clients had suffered from the deflation put great reliance in a certain tale as a clinching argument to crippled firms. It was about a man who was telling his son a bedtime story about an alligator. It was creeping up behind a turtle, with its mouth wide open. Finally it was within reach, but just as its great jaws were snapping shut, the turtle made a spring, ran up a tree, and escaped. "Why, father," said the boy, "how could a turtle climb a tree?" "By gosh," replied the father, "he had to."

**Proved Unworthy of Love.**  
He was nine and I was six. He always escorted me to school, for he said I was his girl and he was going to take care of me. One day we stopped by the roadside to pick flowers and happened to step on a bumblebee's nest. The angry bees darted straight for me and I ran toward my protector, crying, "Throw your coat over my head quick!" My love for him died when he angrily screamed back, "Get away from me, with your bees," and ran off, leaving me to my fate.—Chicago Journal.
