German Parents Discuss Problems Of Large Families

(By N. C. W. C. News Service)
Cologne, July 2.—Germany has
an unique organization known as
the Bund der Kinderreichen, or
Union of Parents with Many
Children.

Recently the organization met in Berlin, representatives coming from many parts of Germany, including the occupied regions.

Among the subjects discussed were those of wages, housing accommodations, taxes, and special representation before public bodies. It was recommended that provision be made by local governments that those with large families be exempted from taxation for school purposes and that transportation companies be asked to grant more liberal fares. The subject of compensation for those injured in the war was also before the body and recommendations were made to the national government that the recompense for injuries be increased.

Indianapolis, June 20.—A large number of distinguished visitors, and the discussion of the importance to the Church in America, took place at the Catholic Press Association, which, along with the National Association of Catholic Editors, met here today. It was one of the most successful gatherings in the history of the association.

The convention opened with a prayer by the Right Rev. Joseph Chamberlain, who delivered the following address to the assembly:

"The newspaper which bears this name is not an institution of antiquity, nor need I urge you to ignore it entirely. It cannot commend itself to you by its age, its venerable worth, and venerable name. It can only commendable and come that you should give it the same respect that you give to the old and venerable institutions of the country."
