**Lovely Summer Dresses at Kiener**

Now that the warm days of Summer are here, we begin to think of the lighter and cooler summer dresses. Mr. Kiener of 599 Hudson Ave. has just returned from New York with as fine a line of dresses as you would care to see.

The lovely cool wash dresses are beyond compare, they can be had in all the pastel shades, lavender, pink, blue, green, yellow, combinations of red, and black and white and too in different plaides and checks. In fact anyone's taste can be satisfied at this attractive little shop, as the stock is so wide and varied.

A special portion of the shop is given over to the children's needs. Here you can find light and heavy coats for the little tots, as well as dresses of every description, fancy ones for dressup and gingham ones for the every day use. Drop around and see the very full line of wearing apparel which this little store carries.

The best of professional help in the fitting line is obtainable here, and all alterations are made. Mr. Kiener makes clothes to order, and you are especially hard to fit this is the ideal way to have your clothes made. All garments are guaranteed and personal supervision of all sales is given.

They are open evenings. The telephone is Stone 3782-L.

**Prompt Delivery in the Coal Business**

The Frank Gallagher Coal Company Inc. who have their offices at 18 Spring street are prepared at all times to deliver to your homes any kind of coal on short notice.

It is a blessing to know just where you are able to get quick service on coal delivery these days when coal is so uncertain, and people are making every piece of coal do its duty.

Mr. Frank Gallagher is the president of the company, and Mr. H. V. Conster is secretary and treasurer of the company. They have had long experience in the coal business, and have carried on that business in this city for years. The name of Gallagher has always stood for Good Coal.

No matter what the size of the order the delivery is the same and the same care is taken with small orders as with large. All kinds of Anthracite and Bituminous are kept on hand and chestnut, egg, stove-peak, ready for delivery. Coke is always ready too, and many prefer it as the coal is so high.

This is the time of the year to order your next winter's supply. Call the Company and get their prices before buying elsewhere. You will find their terms right.

Telephone 1534.

**THE R. B. I. SECRETARIAL COURSE**

Will prepare you to take a position in a business office where a knowledge of Shorthand, Typewriting and Bookkeeping is required.

Our regular registration days occur on the first and third Mondays of every month. Our school office is open every day where full information may be obtained.

**Webster System of Steam Heating**

This is a Catholic Institution of first order—the largest building in the State of Kansas, considering floor area. A big institution, eminently located and being visible from miles of surrounding territory the Webster System of Steam Heating was a worthy selection from all points of view. Where efficiency and economy of maintenance are concerned, Webster Systems are invariably selected.

**Pretty Summer Hats, at Their Best**

Styles for Summer from every member of the family can be found at the attractive hat shop of the Hudson Millinery at 542 5th Hudson Ave. This shop is considered one of the best shops in the vicinity. It is large and roomy and very well appointed. The new lovely hats from New York and other style centers are coming in every day. Just now the Mid-Summer Hats are abundant! Beautiful all white ones of georgette, satin, and other silk materials. These are trimmed in flowers, and sometimes with feathers and some in self material. There are leghorns and felts, for sports.

The children's hats for summer are fine. Done in organdy and straw and silk. The hats for the bobbed-hair girls are very attractive at this season of the millinery business. We wish you would call at this shop and see for yourself the lovely hats and judge for yourself that the prices are pleasingly right.

**Bliss Plumbing and Supply Company**

The Bliss Plumbing and Supply Company who recently moved from 47 Andrews Street where they have been located for some years to their new store at 300 Andrews Street. At this new building they are able to carry on their business on a larger scale, which their ever increasing business demands.

Mr. Charles H. Bliss is the president of the company and stands high among the plumbers of the community.

If you are considering having any plumbing or sheet metal work done this summer call this concern and get their prices. You are assured of the best workmanship and the best results in plumbing, that roof that leaked, when it rained last. They can take care of you upon short notice. Call them at Main 2350 for estimates.

**Rich Woman to Share Her Home With Long-Lost Kin**

Boston. Mrs. Alice M. Gray, a Maiden woman formerly a cook at Miss Wheeler's school in the Back Bay, is the central figure in a romance that sounds like a true thriller.

Mrs. Gray, who is more than fifty years old, was left an orphan when very young. She and her two sisters were sent to a home and afterward separated among different families.

After she grew up she could get no trace of her sisters.

Years passed until finally one day last month a friend told her of seeing an advertisement in a Boston paper for news of her. She replied and found the advertiser was a woman in California. Mrs. Gray had no difficulty in placing the California woman as her sister.

This sister had become extremely wealthy and the possessor of a beautiful estate at Santa Anna avenue, Hollywood.

She wired a sum of money to Mrs. Gray so that she could go to California. In the meantime the other missing sister had been located by the California relative and the three, long separated, are to live together in the mansion.

**Bliss Plumbing and Supply Company**

The Bliss Plumbing and Supply Company who recently moved from 47 Andrews Street where they have been located for some years to their new store at 300 Andrews Street. At this new building they are able to carry on their business on a larger scale, which their ever increasing business demands.

Mr. Charles H. Bliss is the president of the company and stands high among the plumbers of the community.

If you are considering having any plumbing or sheet metal work done this summer call this concern and get their prices. You are assured of the best workmanship and the best results in plumbing, that roof that leaked, when it rained last. They can take care of you upon short notice. Call them at Main 2350 for estimates.

**New Typewriter Causes Stir on East Avenue**

It came to town quietly, and without any blaring of trumpets, yet thousands of people have already shown much interest in a new typewriter being shown at 85 East Avenue. It claims attention because it is a combination of two hitherto distinct types of machine. It is a regular office typewriter and a portable as well. It does the same work as a big machine, has the same standard keyboard and all modern features. It looks big and solid and everybody gets a surprise when they lift it. For although being just a little heavier than ordinary portable machines, it can be carried easily enough in its case.

Mr. Lawrence Griffing, manager of the store, predicts that this new typewriter, which is known as the Corona Four, will prove just as popular in business offices as in homes and colleges. In which case there ought to be some lively competition.

**Her Mistake.**

The actress had been happily married three times but was compelled to sue her fourth for divorce. He had left the flat, also some old clothes and some of her old love letters. There she sat amid the litter and looked them over.

"I remain, Mrs. John Fluddub," Thus they were signed. She tossed the last one aside.

"But I didn't remain Mrs. John Fluddub," she sighed.

**New Camera Can Take Movies of Cannon Ball**

Washington. —Moving pictures of projectiles in flight can be taken with a camera developed at the bureau of standards. It has been used for studying the effect of the blast on the projectiles. This blast is formed by the gases in the gun which are ejected with great velocity as soon as the projectile leaves the muzzle. It completely surrounds the projectile during the first few feet of its flight, and with large guns its force is enormous.

The camera can make 250 pictures a second, but several thousand could be taken by increasing the number of lenses.

It is believed this camera can determine the velocity of a projectile after it has passed through armor plate. Ordinary methods cannot be used because of the flying particles of armor, but the camera can be protected.
