LESTER HARDWARE COMPANY
150 W. Main St. Main 5355 or 5356
Specialists in Builders' Hardware.

Clancy Ships Long Distances.

With a fleet of motor trucks, some of which are large enough to nicely convey the furnishings of a seven room house, and one that will take care of an eight room house, the Clancy M. Clancy Carting Company of 287 Webster Ave. are in a position to move, store, crate, and ship furniture to all sections of the country. Of course the company maintains a fleet of smaller trucks for moving goods to Summer homes or for those who live in apartments.

Considerable business has been done by the firm this year and loads have been taken considerable distance outside of Rochester in shipping goods to Chicago and other western points, the firm has established a branch office in Chicago whereby a considerable saving is made in carting furniture to western points.

In packing and crating, this end of the business is taken care of by Mr. John Hans formerly of the Bickford Storage Company. Mr. Hans has had twenty five years of experience in this line. His specialty is packing wedding gifts and china ware. A telephone call will bring a man to estimate the cost for carting your furniture and will also tell you the cost for shipping.

Two floors of the warehouse are reserved for storage facilities. The building is a fireproof structure and has accommodations for about twenty loads of furniture.

Upholstering and Repairing Done By Firm.

Custom-made furniture is the specialty of Gerald C. Kenny of 295 Lewiston Avenue. Mr. Kenny's factory does considerable upholstery and repairing of all kinds of furniture. The slogan of Mr. Kenny is: "Our prices make down-town prices extravagant." All work is called for and delivered.

All kinds of special furniture is made here, in all designs and finish to suit the fancy of the customer. Mr. Kenny has had considerable experience in the furniture business and is always pleased to impart his knowledge to the customer in assisting them to select the most appropriate pattern to blend with the remainder of the setting.

Overstuffed suits are among the outstanding designs at the Kenny establishment. These are covered with velours, tapestries and include rocker, chair and davenport. Expert workmen are employed at the plant according to Mr. Kenny who supervises the work at all times. Whatever the customer wants in furniture we are in a position to supply.

regardless of style or design says Mr. Kenny. And in most cases considerable saving can be effected for the customer through our location out of the high rent district and the overhead expense of the factory.

In addition to jobbing work of this kind, this company does considerable work on a large scale such as supplying all furniture for hotels, dining rooms and the like.

Heat With Oil and Save Labor.

Perhaps you are one who has become tired of stocking the furnace in winter, tired of the dirt and dust the furnace makes, and coal bills that each year cut deeply into the money apportioned for household expense. There is a way to save all this. Install a Standard Oil Burner.

You may say that this, the beginning of a new heating system for your home. On the contrary this is exactly the time to give the problem of heating your earnest consideration. In spring when it begins to get warmer a furnace fire occasionally makes the house uncomfortable but you are afraid to permit the fire to go out knowing the effort required to start a furnace fire.

A Standard Oil Burner which is being sold by C. P. Howe of 40 Thurston Road, obviates the expense, the effort and the uncomfartableness of maintaining a furnace fire during the days of Spring. With a Standard Oil burner you need only to turn on the heat. When heat is needed the manipulation of a lever in the morning when your house is cold will start the heat. When the house is warm another turn of a lever and the heat is turned off. It is all as simple as the telling.

Standard Oil Burners permit the householder to get away from that everlasting job of shoveling coal. It keeps his cellar clean. It is cheap to operate. People who have never used this form of heating or investigated it are ready to tell you of its many disadvantages. But the man who has once installed an oil burning apparatus never returns to a furnace.

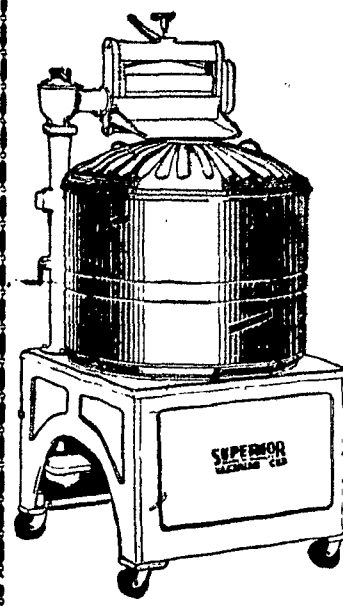

Ask Mr. Howe for a demonstration.

Black Tulle

A dress of black tulle with wide bouffant ruffles is combined with wide shoe-polish ribbon polished to the greatest possible luster.

Embroidery

English ecru embroidery in colors on white is a very novel decoration for a white or colored frock.
