Asphalt Shingles
Many people would like to see Asphalt Shingles on their roofs but think that their cost is much greater than the wooden shingle. This is not so. Hexo Shingles cost about the same as wooden ones and they can be laid right over the old wooden shingles. Most people dread to re-shingle because of the dust and damage to the yard caused by ripping up the old shingles of. Hexo Shingles does away with this inconvenience and also eliminates this unnecessary expense. The result is a beautiful permanent roof which will resist sun, rain or wind.

Hexo Shingles can be obtained in red, green, blue, black and sunset. These beautiful colors enable the owner to pick the color best suited for his particular house and surroundings. Hexo Shingles will retain their color indefinitely.

R. C. Merritt of 404 Jefferson Avenue is handling Hexo Shingles exclusively and will be glad to show samples to anyone interested. His telephone is Genesee 3774.

Red Cross Stoves and Ranges.

Correct Heating Consists in delivering the right amount of fresh, pure properly moistened air when and where it is needed. In addition the furnace itself should be economical to operate, and should require little attention.

The set of standard quality which governs all Red Cross products guarantees these features in every Red Cross Furnace or Stove regardless of price. One of the finest of the celebrated ranges which is carried by Mr. W. E. Drew at 454 South Avenue is the Welcome and it enables you to cook, bake, broil, roast, and if desired heat water with gas or coal in a space of only 36 inches. There is also the Popular, designed for the small kitchen requiring a range of maximum capacity, and is similar to the Welcome in general features but is of a lighter construction and is made in one size only. All Red Cross Ranges can be equipped with water fronts. An exceptionally good grade of heavy nickel work on these ranges results in a lasting beauty, and all ranges have loose nickel horders on the main top which can be removed for cleaning.

For Coal the Red Cross has duplex or duckstap grates. Oven thermometer of special design, large roomy ash pan, serviceable boiler of particular size, drop over door for easy shelf when open.

For Gas the Red Cross has four top and one simmering burners. Burners are removable to clean. Deep burner pan, enamel pan, adjustable gas cocks, two closed and one open covers. For further information draw and he will be glad to furnish a demonstration call on Mr. Drew and he will be glad to furnish a demonstration call on Mr. Drew and he will be glad to furnish a demonstration call on Mr. Drew.
