LESTER HARDWARE COMPANY

150 W. Main St. Main 5355 or 5356
Specialists in Builders' Hardware.

Have Your Automobile Painted

This Fall. Fall is the time to have your automobile painted and trimmed. This is the advice of the Saunders Auto Sheet Metal Works at 31-33 Sola Street, which is between East Ave. and East Main Street. The firm has for fifteen years carried on the work successfully and from these years of experience speaks with authority. All of the mechanics and painters employed are experienced men.

The Saunders people do everything in the line of repair work with the exception of engine work. Their line includes repairing and making of radiators, fenders, bodies, hoods, mufflers, running boards, aprons, headlights, gasoline tanks, drip tanks, floor pans, and all auto sheet metal parts.

In the line of radiators they handle the honeycomb radiator for Fords. This radiator will not burst from freezing. They are also the distributor for the McKinnin Dash (Boblet) and Harrison Hexagon radiator cores.

Everything in the line of fender work is done by the firm from patching a small hole to the duplication of the part of a fender. The mechanics can straighten out the bumps so that it is difficult to find where the damage was done according to Mr. Saunders.

Parts are carried in stock such as cowlis, ventilators, trunk guards, dash lights, running board binders, tail lights, wood chains, cross chains, adjusters, chromols skins, rear view mirrors and many others. The firm does considerable work at simonizing and storage battery repair.

NOW YOU CAN COOK WITH THE GAS OFF

Ranges Being Displayed Here Have Unusual Features. It is now possible to cook with the gas turned off. There is a new type of range being displayed by Natt, Bareham & McFarland at 56 Main St. East which enables the housewife to do what ordinarily would sound like an impossibility.

Known as the Chambers Fireless Gas Range, it really is a gas range with special features added. One of these, a dome-shaped hood called the Thermodome, is for boiling and stewing. Lowered over the utensil containing food, it collects the heat ordinarily wasted, and after a few minutes the gas can be turned off. The Thermodome is lowered then to the top of the range, seals in the heat and makes it work on for the required length of time.

Retained heat is the principle whereby this is accomplished. The Thermodome is heavily insulated, as also is the special Chambers Oven which will hold the heat for great

lengths of time for roasting or baking. It is literally true that these features cook with the gas turned off, after just a few minutes of gas burned. Naturally the savings of gas are large, and also the saving of time and effort, for there is no need of pot-watching and basting when these special features are used.

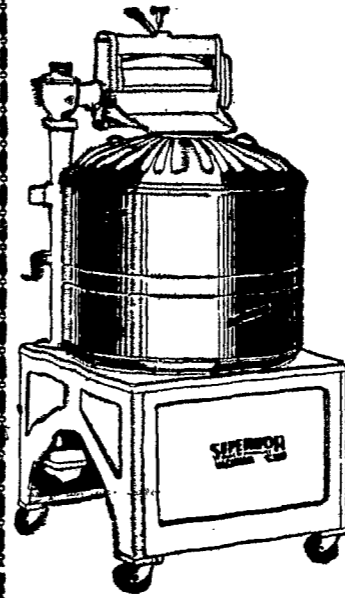

Quality High and Cost Low. Complete equipment and trained men keep the quality of the Sam Gottry Carting Company's carting service high and at the same time keep the cost low. The company maintains horse drawn vans for short hauls and a fleet of motor trucks for long distance moving. They also have especially constructed vans for cows, mufles, running boards, moving pianos and a crew of piano movers, men experienced in this art, who are unexcelled in the city. They have also especially constructed vans and equipment for moving safes and heavy machinery.

Recently the Gottry Company announced its purchase of the R. M. Wilson Company, piano and furniture movers, of 100 Gillette Street. This new expansion only marks one stepping stone in the rapidly advancing progress of the Gottry Company. People of Rochester are beginning more and more to know the worth of the Company and their unexcelled service as movers.

Custom Made Furniture—A Specialty. On Lewiston Avenue there is a factory which specializes in custom made furniture. Mr. Gerald C. Kenny is the proprietor and does considerable upholstering and repairing of all kinds. Mr. Kenny's slogan is "Our prices make uptown prices extravagant."

The Kenny factory make all sorts of special furniture. This special furniture is made in all designs and finished to suit the customer. Mr. Kenny has had considerable experience in the furniture business and is always pleased to impart his knowledge to the customer in assisting them to select the most appropriate pattern to blend with the setting of the rest of the room.

Overstuffed suits are among the outstanding designs of the Kenny establishments. These can be covered with velours, tapestries and include rocker, chair and davenport. Expert workmen only are employed at the plant and according to Mr. Kenny who supervises the work at all times. "Whatever the customer wants in furniture, we are in a position to supply regardless of style or design." And in most cases a considerable saving can be effected for the customers through our location out of the high rent district and the low overhead expense of the factory. This factory has equipped many large sized places such as hotels, dining rooms and the like. Call them at Glenwood 1644.

HURLEY
The

The Finest Electric Washing Machine of its Type—and the Lowest in Price

The Hurley Superior—a new and greatly improved vacuum cup machine. Made by the world's largest manufacturers of electric washing machines, makers of the famous Hurley-Thor!
