CINDER BLOCKS FOR BUILDING

Manufactured - Under Straub Process
At Norman Street Factory

The Rochester Cinder Block Corporation was organized last October for the manufacture of cinder blocks under the Straub patent. Since the first of the year they have been building blocks composed of cinders and cement.

Combination of these two materials in the Straub patented block are advantages and builders of all kinds of buildings are rapidly adopting them. They are absolutely fireproof, thus giving lower insurance rates; less costly to erect; are damp proof and require no lathing or means of a steel tool. The purpose of this is to bring the wood sections to not crack or peel and will take close together.

Subsequently the dry air of your apartment may dry your flooring and make it shrink. This may open the joints to a slight extent. Modern methods of flooring manufacture have developed a very superior product. Mr. Leonard Smith is an expert at the flooring business, and can give you much more information at first hand. Call him at once if you wish expert advice.

Selecting Floors For Your Home.

Hardwoods are never used for outside work because when they are subjected to dampness they warp and swell so badly that the floor may be ruined. Certain hard woods like Maple are especially subject to change under conditions of dampness. When this material is laid for flooring care must be taken to allow for subsequent expansion but it makes a fine floor when properly laid.

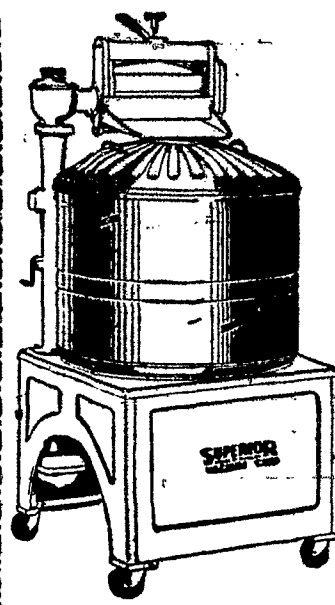

One of the first principles of laying a floor is to get it tight. With oak flooring nails should be set at an angle to the wood so that they are driven far into the wood by means of a steel tool. The purpose of this is to bring the wood sections to not crack or peel and will take close together.

A Remedy For Shabby Floors
A handsome floor transforms a room more than any other one thing. A room may have lovely drapes, nice furniture and be perfectly appointed in every way, but if it has a shabby looking floor the whole aspect and effect is spoiled. Be careful that this mistake doesn't happen to you. It easily does happen. We are apt to let the more trifling ones.

Below is given a chart to use taken from the Sherwin-Williams household guide. These charts are practical guide to all painters and decorators, even amateurs.

Surface To Paint To Varnish To Stain
Floor S & W inside Floor Eloorac Mar-not
Concrete S & W Concrete Floor Finish
Porch S & W Porch and Deck Paint

Mr. Bleest who is located on Cliff road avenue at No. 1247 can take care of all your painting needs. He carries a complete line of Sherwin Williams paints and varnishes at all times. He can also take care of your plumbing problems. Call him on the telephone, Stone 1051 and he will send a most experienced man or some himself to do your work. He also installs heating appliances.

HURLEY

The Finest Electric Washing Machine of its Type—and the Lowest in Price
