Flowers for Every Occasion.

Since the new Seneca Arcade has been opened up one notices with interest the new shops along the way. One of these is especially interesting. It is a Florist Shoppe and is filled at all times with the choicest blooms.

This shop is situated in exactly the right place, near the hotel where one can buy flowers for the girl they are dining without having to leave the building. It is near the theatre too, and a bouquet can be made up at a moment's notice to grace the lady at the theatre. The quantity and quality of the flowers at this shop is extraordinary. Just now the Chrysanthemums are at their height, obtainable in yellow, white lavender, and other pastel shades. When you are in the locality of this shop go in and compare their prices with those of other shoppes, they are very reasonable.

Cut Down Your Gas Bills

Try to imagine a five pound roast cooked with only twenty-five minutes of gas! You can't very well unless you have used the specially insulated Chambers oven with its efficiency for cooking on retained heat. After twenty-five minutes a simple turn of the lever shuts off the gas, closes the vents and seals the oven.

At the end of two hours without further attention or basting, the roast is perfectly cooked, is ready to serve. Should you not be ready to serve it at the moment, you need not worry for there is no danger of burning or being dried up within the next several hours. It has been cooked on gradually diminishing retained heat and will simply remain hot, moist and delicious for you until you remove it. And the same applies to any roasted meat or fowl as well as to bread, cakes, pies, puddings etc. that you bake in the Chambers oven.

The stainless units of the Chamber oven and Thermodome cannot get smelly, for they are thoroughly sterilized every time the gas is on. Their economies of time, labor, fuel food, and flavor are not offset by any newly created difficulties and are therefore real economies. If you are interested in this range drop in at Natt, Bereham & McFarland and let them give you a demonstration of it.

This firm also carry the celebrated Estate Heattrola this time of year we are interested in heating appliances and the new up-to-date one is especially worthy of your consideration they are on view at the store above mentioned and they will be only too glad to show you the workings and merits of this heating arrangement.

Dealer Urges Use of Small Coal

With the present high price of Anthracite coal, there is a growing demand for some way in which the average householder may cut down the size of his coal bill. There are of course many types of grates which can be used to advantage to burn the steam sizes of Anthracite but for the average home these are too expensive to be of value. Though in apartment houses and office buildings they are coming into more and more general use.

Benedict Meisenzahl whose office is at 377 Main Street West recommends what is known as Buckwheat coal for small hot air, hot water, and steam heaters and the results have been very satisfactory. The main difficulty with burning soft coal seems to be the lack of storage space in the average homes.

It is advantageous to bank with smaller coal and to mix a small portion of it with the furnace coal, except in the coldest weather when it is necessary to use the large coal alone.

Now that coal prices are lower, it is advisable to buy your winter supply of coal and store it until ready to use. In buying now, before the severe cold weather, you not only save money for yourself but you lessen the expense to others in the fall when the shipment of coal is sure to be heavier, and therefore to cost more in transit. Order now! Call Main 63.

Pratt & Lambert Products.

When you get the feel of a brush dipped in Vitralite, the long life enamel, you wonder why you ever used those stiff, painty enamels that left streaks and brush marks all over the work. Vitralite flows like rich cream and levels itself without laps, streaks or brush marks to a smooth, porcelain-like surface that lasts longer than paint. It is guaranteed for three years inside or out! Use the same high grade type of enamel on your furniture that the best painters put on their finest work. Come in and see Vitralite in white and five rare tints.

This Vitralite is a Pratt and Lambert product, and these products are carried by The I. S. Hunt Company of 390 Thurston Road.

Swift Financing

A negro cook of middle age, who had saved considerable money, suddenly became engaged to a sporting man of her own race.

One morning her mistress saw her gazing abstractedly out of the kitchen window and inquired: "What's the matter, Hannah?"
"Well, mum," she replied, "with my husband that is to be everything goes with such lightning speed that I'm confused. Day before yesterday we got acquainted, yesterday we got engaged, and today I find he already owes me \$80."

HURLEY
The Finest Electric Washing Machine of its Type— and the Lowest in Price
