A New Way to Rid Yourself of an Old Trouble.

One of the great mistakes in dealing with nervousness consists in a drug treatment to hasten the restoration of the natural nerve function. Where this error is followed it will cause shock to the nerves and defeat the efforts the natural forces of the body are all the time making to relieve the sufferer, and give rest to the already over-strained nerves.

Nervousness manifests itself in a good many different ways. People are fussy, fidgety, weak, emaciated and diseased as a result of it. Different symptoms have been classified to indicate what form of drug to use to combat them. The drug treatment has proven wholly ineffectual to perceptibly improve much less cure the nervousness. There are over six thousand drug preparations in use and there is more sickness than ever.

The science of Chiropractic does not classify the great family of nervous disorders under different heads. It looks to the anatomy of the human system to find and adjust the spinal disarrangements that interfere with the natural action of nerve energy, which proceeds from the brain to every organ tissue, and cell, when there is no impediment on any of the nerve lines at the spine. By locating and adjusting these conditions the natural forces of the body will restore normal functions and effect full recovery from nervous disease.

Many have suffered for years with nervous ailments that would not respond to other methods, have regained their health through Chiropractic adjustment. This drugless method of health work has had many years of successful result to commend it. Conduct your own investigation and learn the merits. The Leve Bros. Chiropractors in the Ward Building will make an appointment with you at any time. Call them Stone-6712.
