Courtesy First Principle In Battery Service

The first thing in the battery business is to know all there is to be known about the care and repair of storage batteries, but they can't for a minute forget that it is not only what they do but the way they do it that counts. The way of the Long Life Battery Company, 28 Prospect Street, Main 8461, is always the courteous way. You may be sure that they will treat you just as you would want to be treated if you were the battery service man and they were the car owner. Bring your battery in. If you want to know what happens when water in the battery runs low—when the charge goes down—when a short circuit occurs, they will tell you. More than that, they will tell you the few simple things you need to know to side-step battery trouble.
