Sam Gottry Company Cinder Blocks For Building

Plane moving is a large part of the daily work of The Sam Gottry Company, but don't think that that is the only trucking they do. They are prepared to do all sorts of heavy moving and trucking of every sort. Safes, boilers, and heavy machinery are quickly, safely and economically moved as they have the latest and most complete special equipment for heavy and difficult work.

Mr. Gottry maintains a fine and well operated trucking service in this city and to points anywhere. He has a fine truck equipment and a staff of men who are under special instructions to exercise the greatest care when handling goods of a customer, so that they will reach their destination every bit as good and as unmarred as they were when they were taken out of your house.

This company is centrally located having their office in the Powers Arcade. If you wish to phone them their office is Main 1412 and their stables are 47 Parkway.

Whitmore, Rauber & Vicinus Co., Inc.

Every body interested in this line of business knows that the name of Whitmore, Rauber and Vicinus stands for the best of all construction work. This company has long been noted for their honesty and good standing, in Rochester and the vicinity. They are general contractors and dealers in building supplies. They are noted as having laid the asphalt in the new Subway Boulevard, and in addition to other materials furnished 30,000 barrels of cement for use in concrete work in the subway's construction.

As this firm have been in business for over fifty years they have come to know the quality of material and can serve Rochester's demand so much the better. They have always kept themselves in a position to meet every demand for building and construction material, promptly.

This company also installs tile and marble floors, side walls, and in other places in which it is used. They have put in many soda fountains throughout the city. If you call their office they will gladly give you estimates on Tile, Cut Stone, Cement, Plaster, Herringbones, Metal Lath, Sheet Rock, Plaster Board, Limerock, Water Proofing Materials, and Cement Blocks.

If you are building get their prices first. Call Main 180. Their offices is located at 51 Griffith St.
