An Attractive Display Of Lighting Fixtures

Mr. Otto Diederich at 105 Harris Street has in his spacious store a variety of over one hundred fixtures all illuminated which will show you how they will appear in your home. The prices are very reasonable and it would pay you if you are considering wiring your home to drop in at this store and go over with the proprietor the many lovely fixtures there. At this time he is making a special offer of wiring a house of 6 rooms for only \$150.00 and this price includes fixtures. Think this offer over we feel sure there isn't a better one in the city.

During the past year Mr. Diederich has wired over 200 homes in Rochester and the vicinity, this list includes the new Summerville Fire House. Many of the readers of this paper will be interested to know that he has just recently completed the wiring of the Our Lady of Victory Church, School and Convent which is located at Pleasant Street. He did all of the installation of the electricity and furnished the fixtures. This goes to show that Mr. Diederich knows his business and is a reliable and satisfactory electric workman.

The store also carries a complete line of other electric appliances such as Washers, Ironers, Heaters, the prices range very low accordingly on these, and it would pay you to get the prices here before buying elsewhere.

Mr. Diederich goes by the motto 'Satisfaction'.

Paint Your Old Car

This time of the year we begin to look at other people's new cars, we wonder if a coat of paint on our old car would improve the looks. Of course it would but you must use the right kind of paint and enamel to do it.

At I. S. Hunt and Company's store at 390 Thurston road, you may obtain the best known Auto enamel on the market. This is called Effecto Auto Enamel and for a few dollars, enough can be had to go over your old car. This effect of a New Car will give your sweetheart or wife a new feeling of contentment which will make the whole family feel better. Buy a brush and put it on the surface of the car as best you can, then forget it. It will flow out and level up without brush marks. This is the nicest feature of the whole thing. No worry whether it will be streaked or not. After twenty-four hours you can take your car out and drive it, resplendent in a full beautiful finish that stays longer than the paint on most cars. Often one coat will do, sometimes if the car is in bad shape, another one will be necessary.

Go in and see the different shades, it comes in eight different ones. After you have seen them compare them in beauty and luster with any other auto enamel you have seen. This will convince you that Effecto is the kind you need.

The Hunt Company is also the headquarters for drugs and medicines of all kinds. It has for years been one of the reliable concerns in the district. Call there for your sick room needs.

Do You Need a Man To Put The Roof On Your New Home?

Lots of people are putting up new and attractive homes this spring and are thinking of the kind of roof to put on it, and of course want the best workmanship. The roof is one of the important things about a house. Experts at the business are in demand. Mr. W. A. McCormick at 4 Lake Avenue is one of these experts and can handle the roofing problem for you to good advantage. He has had great experience and works with a guarantee. His prices are right and if you will call him at Main 7716 he will be glad to give you estimates.

This gentleman does the plumbing too, for your house and all sorts of tin-smithing. He will plan your bath room and kitchen plumbing with you as to convenience, duration, sanitation and economy. Call him for advice. Mr. McCormick will be glad to discuss the heating problem with you too. Now is the time to have your furnace cleaned and renovated and examined. If you are installing new furnaces or other heating apparatus he can give you expert advice and prices on same.

Value In Old Paper and Rags

When cleaning up your house each morning, ladies, save the evening and morning papers, also all the old magazines and at the end of a certain period of time, call John Albrecht and Son at 172 and 174 North Water Street and they will call for your load and take it away. You will be surprised how many papers you can save in this way in a short time, and too you will be pleased with the amount they will pay you for them.

People who have a quantity of old iron, and metal of any kind may find a ready market by calling Stone 2712 at any time. Some times during the year the prices are higher than at other times. Watch for these times and make the most of your cast off articles.

The firm has for years been noted for its straight forwardness and integrity in its transactions. It makes no difference to them whether the load is large or small that they call for, each one receives the same consideration.

Freakish Trees

An explorer in the forests of northern India has found a tree that gives an electric shock to any one who touches it. The intensity of the shock varies with the time of day, the current being at its strongest at 2 p. m.

Few people realize the extraordinary properties with which nature has endowed some trees. In Nubia, for example, there is a tree, the sofar, that plays tunes, a startling effect due to the boring of numerous insects at the base of the young shoots. The wind, playing through the tiny apertures, produces a series of flute-like notes.

A Canadian prairie tree, known as the compass tree, is an infallible guide to travelers, the edges of its leaves always pointing north and south. In Arizona there is a tree which, on being touched, actually ruffles its leaves and tries to scare off the intruder by emitting a sickening odor.

Too Unlucky

A visitor in Kentucky came across that rare specimen, an unmarried colored man.

The negro was a quiet, elderly person, not shiftless but quite industrious, so the Northern man felt curious and determined to find out why he had remained single.

"Uncle Jim, how does it happen that you are so opposed to matrimony?" The old fellow looked up with a grave face, but there was a twinkle in his eye as he replied: "Me, uh? I ain't exposed to matrimony."

"Well, why is it you have never married?" his inquisitor continued.

"Haven't you seen anyone you liked?"

"Lawdy! yessah—but you see it's thisaway; I couldn't risk my judgment."

Oldest London 'Cabbie' Mourns End of Horse

London.—London's oldest cab driver is Joe Mindon, who has been 90 years on the box, and whose greatest pride is the fact that the late King Edward was for years one of his regular "fares."

Motorization of the means of transportation in London has left old Joe almost without employment, and he talks jauntily of acquiring a taxicab.

Asked for his opinion of the taxi, the aged cabbie said reflectively:

"They have driven us off the streets in the same way the busses are driving them off. And as for the traffic, we'll soon have to start burrowing underground. Give me the old days with clear streets and a smart horse, and time for a nap on the box if you liked."

All the world's a stage and multitudes are only allowed to constitute the background.

Attending to one's own business and interest in nothing else, may imply some selfishness.

A quart bottle of vinegar wrapped up can now be carried home without stirring suspicion.

It may happen that the more "high-class" the neighborhood the less neighborly the neighbors.
