Decorating With Pastel Bronzes

As Nature changes in her progress from summer to winter, she brings the beautiful effects of the somber autumn colorings of the foliage on a background of delicately-shaped twigs, interspersed with the drab colors of dried vegetation.

We have Pastel Bronzes for producing novel and pleasing decorative effects upon dried weeds, grasses, twigs and seed pods. There are also certain colors well adapted for decorating candles. Many people of an artistic bent are using these pastel bronzes with excellent results. It is a simple process requiring no special skill.

Ask for the folder that tells all about it.
