

BISHOP THOMAS F. HICKEY ISSUES ANNUAL LETTER ON ECCLESIASTICAL SEMINARIES

The following letter issued by Bishop Thomas F. Hickey was read in the churches last Sunday.

To the Clergy and Laity of the Diocese of Rochester:

A message on the Priesthood of God's Church is a treatment of a subject so sublime that it is undertaken with a consciousness of one's limitations but it is not a question here of rising to the heights of a learned discussion, but rather of contemplating in the performance of a duty an institution fashioned by the hands of God. When our Blessed Redeemer placed in the world His Spouse, the Church, He established a Priesthood that would speak with divine authority, and would minister in God's name to man. A review of the growth and expansion of the Church during a period of nineteen hundred years will reveal at once the fact that in the history of man there is no parallel in endurance and in influence for good to the life of Christ's Church on earth. Had it been but a human institution, it long since would have perished, and its very existence today, in all its splendor, can be regarded as an evidence of its Divine Character. But in the Church and in the Priesthood there is a human as well as a Divine element and we, the members, are the human part.

The sacred and responsible office of the Priesthood is entrusted to human instruments, to men called to that state of life. It is an exalted dignity, a tremendous power, that of the priest; and he is one indeed who enters most intimately into our lives. He is among the first to greet us at our entrance into the world, when by Baptism he introduces us into the fold of Christ's Church, and at every stage of life he is a being whose ministrations touch the very vital parts of our individual and family lives. He is with us in childhood, youth and mature and ripe old age, and as he blesses the clay of our bodies about to be consigned to mother earth, he follows the soul to the prayer of Mother Church up to the throne of God.

To know only in a general way the duties of a priest and his constant ministrations in holy things is to appreciate in a measure the solicitude of the Church in her preparation of candidates for the Priesthood. It is not alone that the one whom she raises to this rank will be able to discharge fittingly the duties entrusted to his care, but that in his own life he will reflect before men the model of all priests, Christ Our Lord. His training during the years of Seminary life is by the grace of God intended to build up in his soul a practice of solid virtue and to enable him to submerge self in the faithful performance of duty. The priest is to be a leader, not only in sacerdotal power, but also in Christ-like example. He is in the world, but to be not of the world, and fidelity to this standard is to be a watchword during his whole tenure of life.

And where are we to look for the material thus to be moulded but in our good Catholic homes in which the child has already felt the example of God-fearing parents and where his young heart has been trained to the knowledge and love of God? These are the boys to whom the doors of our Preparatory Seminary are opened, and who will have there the first lessons in ecclesiastical training at the hands of the Clergy of the Diocese. From this school sixteen boys who have been approved by their superiors will be sent this year to St. Bernard's Seminary for the course in the Sacred Sciences and for the training of the mind and the heart in the knowledge and love of God.

These few observations on the Priesthood are made that we may all take thought on the priceless treasure which we enjoy in our religious life, and that we may be moved to do our respective parts in carrying on the work of ecclesiastical training in the Diocese. The Bishop, Clergy and Laity, in a union of effort can do so much for the Church in producing with God's help a capable and zealous body of priests! There is no doubt about the interest of our people in the Seminary, but we want them to know it better and thus to realize its benefit to the Diocese.

Its ordinary means of support is found in the collection, which is now to be taken up in all the parishes of the Diocese, and in the tuition paid by the dioceses sending students to St. Bernard's or paid by these students themselves. It goes with-

out saying that in every properly conducted institution the revenue should be at least sufficient to meet current demands, which, of course, includes a provision for replacement and repairs. This can be done at St. Andrew's and St. Bernard's, but not with the general contribution on the basis of one dollar. Our population in the Diocese is of sufficient number and means to make contributions that will raise the grand total of the collection to an amount that will provide comfortably for the needs of the Seminaries during the current year. If our wage-earners would deliberately set aside even a small part of the money spent for pleasure during the year and give it to a cause of religion, the donor would be the better for it and the cause would be materially aided. And touching the point of money spent for pleasure, we respectfully ask our people to study whether, aside from what they should give to religion, they are not spending too freely in recreation and amusement.

As it is the duty of men and women to be vigilant about their temporal affairs in the matter of making a last will and testament, it may be properly suggested here that God in the works of religion and charity should always be included in this document. We have received with gratitude a bequest of five thousand dollars from Elizabeth Kirschel, in memory of her brother, Rev. Michael B. Kirschel, late Pastor of St. Francis Xavier Church, in Rochester. A bequest of one thousand dollars from Rev. Dietrich Laurenzi, late Pastor of Holy Family Church, in Rochester, has also been received and recorded with appreciation in the list of gifts made to the Seminary in 1925. Among the laity who have remembered the Seminary in their wills, special mention should be made of Albert E. Loizeau, who left three thousand one hundred seventy-five dollars, and Louise O'Connor, who left one thousand dollars to St. Bernard's.

It may be further suggested that it will be the part of practical business for persons of sufficient means who can help the works of religion not to defer their gifts till death, but to see the application of them in their own lifetime.

We are pleased and grateful to record that during the past year the general condition of health in our seminarians has been good, and that the spirit of the student-body has been quite satisfactory.

We are now making known to the priests and people of the Diocese that Sunday, September 26, is designated for the Seminary collection of this year. To prepare for the response to this appeal we are sending to every parish a quantity of envelopes for a proper distribution to the people, and we most respectfully request that these envelopes be used in bringing the contributions to the church on the Sunday of the collection.

We direct every Pastor to read this letter to his congregation on Sunday, September 12, to distribute the envelopes on the following Sunday, and to take up the collection as stated above on Sunday, September 26.

As it can happen that the envelope in itself may not be sufficient, especially in the rural districts, we request that a suitable number of collectors be selected to call upon the people for their contributions. In every case the returns should be made promptly to the Chancery Office.

If in some churches the number of Masses on Sunday will not permit the full reading of this letter at every Mass, it will be for the Pastor to take from it selections that will bring to the people substantially the message of the Bishop at each of the earlier Masses where this condition obtains, and to stress its importance by an earnest word of encouragement from the Pastor himself. Reports on last year's collection will be distributed to the people on next Sunday in their churches.

We herewith express thanks to the donors of special gifts during the past year, and we hope that this movement will grow. With profound gratitude to God, and with an expression of deep appreciation to priests and people.

Very sincerely in Christ,
THOMAS F. HICKEY,
Bishop of Rochester.
September 8, 1926.

NAZARETH ACADEMY 1927 CLASS ELECTS

At the first regular meeting of the Class of 1927 of Nazareth Academy Tuesday afternoon the following girls were elected class officers: Betty Costello, class president; Eleanor Hurley, secretary; and Margaret Hickey, treasurer.

The Student Co-operative Association was reorganized under the leadership of the following seniors: Helen Tierney, president of the association; Dorothy Corrigan, vice-president; Bernice Veith, secretary. The Madaille Club, a senior literary society, elected Mary Louise Freer as president; Alice Harvey vice-president; Anna Mascari, secretary and Christina Kresg, treasurer.

CATHOLIC WOMEN'S FEDERATION FIRST FALL MEETING

The first Fall meeting of the Catholic Women's Federation will take place on Tuesday evening, September 21st at 8:15 o'clock in the basement of St. Joseph's school. A large attendance is looked for as plans will be made for the Winter activities. Ex-Judge Philip Donnelly will describe the scenes of the Eucharistic Congress after the business session and the Spiritual Director, Rev. Joseph Gefell, pastor of Holy Family Church will also be one of the speakers. Mrs. Teresa Weber and her committee will serve lunch after the meeting and a get-together social will be held. Catholic women are invited to attend.

Going To China

Rev. Charles Hilbert, son of Mr. and Mrs. James E. Hilbert, of No. 48 Normandy avenue, who was ordained in June at Maryknoll Seminary, Ossining, and assigned to missionary duty, visited his parents this week before leaving for China. He will be stationed at Hakka, in Southern Manchuria. He will sail for China on September 19th.

Rev. Charles F. Hilbert, Father Hilbert was born in this city. He was graduated from St. Peter and Paul's school and St. Andrew's Preparatory Seminary and attended St. Bernard's Seminary for three years ago.

SS. Peter and Paul's

The annual appeal for the seminary collection from Bishop Hickey, was read at the mass on Sunday by the pastor Rev. J. E. Gefell. Announcement was made on Sunday of the ember days on Wednesday, Friday and Saturday of this week.

Announcement was also made on Sunday that there would be no office hours on Sunday afternoon after four o'clock only sick calls will be taken care of.

At the request of Commandery 18 Knights of St. John's, a requiem mass was said this week for Joseph Zick late member of the commandery.

The monthly meeting of Commandery No. 28 will be held on Monday evening Sept. 20th. The commandery will celebrate their golden jubilee in 1927 and are planning arrangements for same.

St. Francis Xavier Church

Branch 186, L. C. B. A., will hold an apron and Towel shower on Monday evening for the benefit of the coming Bazaar of St. Francis Xavier Church to be held the last week in September, at their meeting rooms on Bay street. Cards will be played and refreshments served. All members and friends are invited to attend.

Catholic Women's Club Hold Supper Meeting

The first fall supper and business meeting of the Catholic Women's Club was held Monday evening at the Osburn House. Following the supper, Mrs. M. H. Keogh, president of the club, who presided, spoke briefly and introduced as the speaker, Rev. Francis X. Kupp, pastor of St. Francis Xavier Church.

Father Kunz, who arranged for the special train for Rochesterians who visited the Eucharistic Congress in Chicago last spring, described scenes at the congress. He told of the hospitality that greeted the visitors and described the masses conducted by cardinals, archbishops, bishops and priests, and the impressiveness of the 60,000 children's choir at the stadium.

Preceding the talk plans for the fall work of the club were discussed. Mrs. Edward T. Garvey had charge of the supper arrangements and she was assisted in receiving the members by the following women: Mrs. William H. Rosenbach, Mrs. George Knopf, Mrs. Maurice Curran, Mrs. George Woodward, Mrs. James P. Cullen, Mrs. Harry C. Wilson, Mrs. Joseph E. Marcille and Mrs. William J. Reid.

KNIGHTS OF COLUMBUS ELECT OFFICERS

The annual meeting and election of officers of the Rochester Knights of Columbus took place Monday evening at the K. of C. Home, No. 700 Main street east. The following officers were unanimously elected:

Grand Knight, Charles R. Barnes; deputy grand knight, Daniel P. Fitzgerald; chancellor, James E. Cuff; advocate, James M. E. O'Grady; recorder, Thomas H. O'Connor; treasurer, George W. Henner; warden, Louis L. Knapp; inside guard, Nell P. Collin; outside guard, Eocco M. Fischette; trustee, Frank J. Smith. Trustees Arthur N. Brayer and James P. Jones held over for another year.

This will be the third term for Grand Knight, Charles R. Barnes, and he was accorded a unanimous election for each term. An important change in the rules and laws of the order calls for the appointment of financial secretaries of K. of C. Councils hereafter by a committee composed of the grand knight, immediate past grand knight, and three trustees of each council.

"Spreading Beyond Old Walls"

A business cannot have been a part and parcel of the community for almost sixty years, and serve the community well, without having woven very close threads of friendship and intimacy between itself and its patrons. We are mindful of this fact in our exchange of goods during these days of physical expansion and broadening horizons. You are interested in the past of this business, in its growth and development. Its present-day happenings are part of the passing show—a phase of your everyday life. In the future, we believe, you feel is a matter of personal concern.

So we make bold to hold that we have a most interested audience as we draw back the curtain and open to view this new chapter of store life which has been so long in the making. It is practically a new store, with all the good old traditions that are unfolding itself in its pages these Fall Fashion Show days.

To aid you in visualizing the new store more readily, and as a souvenir of these "get-acquainted" days, we have prepared a store story, in picture language. You will see the brochure and desire to preserve it.

It is distributed at several points about the city: Transfer Desk and Kodak Counters, Main Floor, Dressing Room, Women's Apparel Section, Second Floor, Restaurant, Sixth Floor.

It's title is "Spreading Beyond Old Walls" and for the asking, with our compliments.

SIBLEY, LINDSAY & CURRIE

Portable Machine That Shakes, Sweeps and Comb Floor Coverings

That's what the machine does. The machine is a portable machine that shakes, sweeps and combs floor coverings. It is a new machine that has been invented by Sibley, Lindsay & Currie. It is a machine that is used in homes, hotels, and public buildings. It is a machine that is used to clean and maintain floor coverings. It is a machine that is used to make floor coverings look like new. It is a machine that is used to make floor coverings last longer. It is a machine that is used to make floor coverings more comfortable to walk on. It is a machine that is used to make floor coverings more attractive. It is a machine that is used to make floor coverings more hygienic. It is a machine that is used to make floor coverings more durable. It is a machine that is used to make floor coverings more resistant to wear and tear. It is a machine that is used to make floor coverings more resistant to stains and discoloration. It is a machine that is used to make floor coverings more resistant to odors. It is a machine that is used to make floor coverings more resistant to insects and other pests. It is a machine that is used to make floor coverings more resistant to fire. It is a machine that is used to make floor coverings more resistant to water. It is a machine that is used to make floor coverings more resistant to all kinds of damage. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used to make floor coverings more resistant to all kinds of abuse. It is a machine that is used to make floor coverings more resistant to all kinds of neglect. It is a machine that is used to make floor coverings more resistant to all kinds of misuse. It is a machine that is used
