

Patriotism In Peace Needed, Priest Says

Rank and File of Citizens Rule
Spirit of Country, Is Memorial
Togole

"The glory of America depends not only on our Army and Navy but on the rank and file of our citizens. If we send out our Army and Navy to work on the battlefield, and corruption works in the hearts of our people, the soldiers and sailors are enrolled in a losing battle," said Rev. Walter A. Foery, rector of Our Lady of Mount Carmel Church, last Sunday morning, at a memorial service held there for soldiers who fell in the World war.

Father Foery celebrated solemn high mass for these heroes, had words of consolation for their relatives and friends present, and words of advice for members of Flower City Post, American Legion, who attended in a body. He sought to impress those who live to take up the duties of citizens, that patriotism is not confined to time of war. He urged them to fulfill their civic obligations.

"The heart of a nation is in the hearts of its people. If the hearts of the people are corrupt the nation will be and if virtue is in the hearts of the people the nation will be virtuous," Father Foery argued, as he urged respect for law, for those in authority and for religion.

He pleaded for religion in the national life; respect for the Supreme Being, adding that "patriotism or love of country is not confined to soldiers and sailors but includes all citizens."

At this time of year, especially, one is reminded of immortality, the priest, old parents and other relatives of the fallen soldiers.

"Just as the winter's ice and snow has gone away before the beauties of spring, so over the graves of these dead shall light come, and from death itself a living being shall rise, endowed with eternal youth," he said.

Surely you are interested in our own American priests on the missions. One of the greatest needs of the priests on Indian missions in the United States is chapels. Many of our poor Indians travel over desert and prairie long distances to hear Mass. The chapels are too far apart. The buildings are often unfit for Mass and too small to accommodate the people who come. For example, at one place in New Mexico where they had Mass on Christmas day, a number of the Indians were compelled to remain outside in the snow during the entire service. The Missionary there is Father Albert Braun, a young American who had a distinguished record as a chaplain in the war.

At the present time from all over the United States requests have been received for twenty-four chapels. Nineteen of these are detached chapels as distinguished from built-in chapels. The detached chapel is a separate building used as a mission church and is generally for the accommodation of the Indians living at points remote from the central mission. The built-in chapel is in a convent or mission school.

Donations for built-in chapels are hardest to get but most needed. They are the Sisters' chapels and are the most useful. Usually the Indian children also attend Mass there. There are donors who by reason of their appreciation of the Sisters' would be willing to donate a built-in chapel where the Sisters hold their daily religious exercises and find the strength of soul to carry on their work.

\$500 will pay for a built-in chapel or will repair and enlarge a detached chapel. At least \$1000 is needed for a detached chapel. The diocesan office will be glad to furnish all information about the chapels needed and will guarantee the carrying out of the conditions of the gifts. Membership in the Society

Classes of Membership

An Ordinary Member contributes five cents a month or sixty cents a year.

A Special Member contributes a body fifty cents a month or six dollars a year. A Special Member is entitled to a special mass. The priest, Rev. J. E. Gefell, is looking for a large attendance.

A Perpetual Member contributes out of his own resources a sum of forty dollars, and he is enrolled in perpetuity. A Perpetual Member, if he so desires, may pay the required amount in installments, provided it be done within one year.

An opportunity is given for deceased members to be enrolled as Ordinary, Special or Perpetual Members of the Society by their friends who will make in their names the offerings required for membership. In consideration of this charity they will share in the merits of the missionaries and in the Masses offered for benefactors.

Opportunities of Membership

Burses, Annuities, and Scholarships. The Native Clergy is truly the hope of the missions. A Catholic layman or priest can help build a fitting memorial by donating a Bursar or an Annuity or by contributing to the formation of a Bursar.

St. Theresa Parish Attends Ceremony At Ground-Breaking

The Rev. Francis Barzok, of Buffalo, encouraged the people of St. Theresa parish to continued efforts by his commendation last Sunday afternoon of the work they had done in leading up to the ceremony of ground breaking for the new church in Mark Street at which he assisted.

The Rev. Stanislaus Szupa, rector of St. Stanislaus Church, presided at the ceremony, assisted by the Rev. F. W. Stander of Holy Redeemer Church, the Rev. Michael Drzewski, rector of the new church, and by trustees Leon Szariak and Andrew Kabala.

Work on the new church will begin immediately with the expectation that the second floor school rooms will be ready for use in September. The church will include an auditorium in the basement to seat about 500 and a church auditorium on the first floor, accommodating 650 besides the six classrooms.

Services have been conducted for the parish since September in Holy Redeemer Hall, it having been part of the St. Stanislaus parish. Father Szupa has fostered the idea of the new church and has helped Father Drzewski in its organization.

A Bursar is made by a donation of \$1000, \$1200 or \$1500 (the cost of upkeep varies in different mission countries) and insures in perpetuity the education of a native student for the priesthood. The interest, not the principal, is used yearly for this purpose by the Missionary Bishop.

An Annuity is made by a donation of \$75 a year for six years, during which time a native student is supported in the seminary.

A Scholarship is made up of a donation of \$450, and assures for six years the education of a native student.

As an opportunity to charitable Catholics, unable to provide an Annuity or entire Bursar, the Society sponsors The Little Flower Bursar and The St. Joseph Bursar, which are formed by donations from the faithful.

The Annuity Plan

Concerning the many outstanding features of the excellent Annuity and Trust Agreements of the Society for the Propagation of the Faith, a special booklet, "As Certain as the Compass," will be mailed without obligation to anyone interested in this essentially practical plan.

Sufficient it is to say here that, by means of this Plan, a person invests a certain sum of money with the Society, as paid a reasonable rate of interest—sometimes as high as 6% while he lives, and at his death, the money he intended for the missions goes to the missions—every cent of it, without the least bit of legal wrangling or delay.

Wills and Insurance

In this same booklet is given valuable advice on the drawing up of wills in which money is to be bequeathed to the missions through the Society. This point cannot be too carefully considered, especially by members of the clergy. Then, too, there is much to be learned from this invaluable little booklet concerning insurance and the means by which a Catholic is enabled to insure his life, pay a small premium and name as beneficiary the Society for the Propagation of the Faith.

In fact, Annuity and Trust Agreements, Wills and Insurance are only a few of the many highly important questions touched upon. One chief quality of a good business man is his willingness to take advice as well as to take advantage of opportunities. There is good advice and a good opportunity in the booklet, "As Certain as the Compass." Send for it to-day.

Mass Stipends

It is interesting to know that, because of the variance of time in different parts of the earth, the sacrifice of the Mass is being offered uninterruptedly throughout the world.

There is something vastly consoling and, at the same time, significant about this perpetual chain of Masses. How much the missionary depends upon the faithful at home to help him make possible his part in this sacred act is reflected every day in the many letters that reach the Society in the United States from Missionary priests asking for Mass Stipends.

The Society offers priests in this country an opportunity to send surplus Mass Stipends to needy missionaries. It extends an equal opportunity to the faithful to remember their deceased relatives and friends by having said for them in the missions. The distribution of these Mass Stipends is, of course, universal and impartial.

KOLSTER RADIO

We could tell you that Kolster Radio sets are extra selective and super-sensitive. But we prefer to make no claims.

We say, "Come and hear a Kolster Radio, or let us give you a demonstration at home, if you prefer." Kolster Radio appeals to the eye, but its main appeal is to the ear.

Musical experts, while they seek beautiful cabinets and advanced engineering, choose their radios chiefly by comparison. Their critical ears demand the utmost in reproduction.

That is why Kolster Radio has become known as the "musician's radio." It is preferred by famous orchestral conductors, singers, composers and musicians.
