

With the arrival of warm weather and as traveling becomes a part of our program, a frock that serves two purposes is not only extremely convenient but almost a necessity, especially if one's tuggage is just a bag. The Woman's Home Companion fashfor expert has designed this frock with the idea of helping you acquire a good-looking evening dress, which with the addition of a sleeved bolero becomes an equally smart afternoon frock. The demign is simple which is its chief charen; by the way, it is easy to make. If you select a sheer material such as georgette or chiffon in not too light a color, your dress will be correct for afternoon as well as for informal evening affairs.

## Notes About Fashions

to young girls.

tie ends.

and dark green on one side. Pumps and strap shoes of dark blue teather are extremely popular, and him! they are even more attractive when worn with a bag of the same leather. Very charming is a combination, ex-

tremely brief in length, which is very finely plaited from neck to hem. The hem, by the way, is in deep scallops, and for decoration there is a tiny sash

thang over the side in a graceful clus-

There is a great demand for the wide taffeta ribbons in the popular shades and the supple satin ribbons Bengals and Felts Are also are popular, as well as the grosgrains. The velvet ribbons seem likely to decorate many of the summer

It seems almost impossible to think that anything new could be originated in printed silk frocks, but that very thing has been achieved in a dress of printed chiffon, which has a long coat of crepe de chine in the same pattern.

Exquisitely lovely is lingerie of maize colored crepe de chine, trimmed with real lace of the same lovely tint and embroidery consisting of tiny flowen of violet silk set in with hemstitch-Eng. Small bows of violet ribbon fur-Ther accent the color scheme.

Perhaps you have wondered whether you could becomingly wear that socalled "difficult" shade—chartreuse green. Combined with the right con-Crasting color a new chartrense called cretose is becoming to almost any woman. It is very smartly combined with navy blue, chamois-akin yellow, traige, pink, a duil, deep red or royal

### Velveteen One of Most

Approved Coat Fabrics Velveteen is gathering impetus with each day and is one of the most approved coat Labrics for summer sports amid street wear. The velveteen wrap is a very wise choice in any of the hagh shades, dark ones or black.

In the realm of dressler wraps, printed transparent velvet is highly important. Although this staged an early debut, It is considered the leading forerunner of fall fabrics among the richer and more elegant materimis. Therefore, summer garments in printed velvets need not be looked Sports Togs Offered in upon as novelties, nor of temporary fa wor in the fashion picture.

It is hinted strongly that satin will recurn for an autusinal vogue, which influctory for practical wear women

### Dame Fashion Smiles

By Grace Jewest Austin

Out in that charming imaginary sun parlor, where Dame Fashion is staging many of characters ranging

her small dramas this season, with all the way from gold fish to hookedrug makers, there will be many letters written this summer. Dame Fashion has sometimes thought she could tell almost directly when a let-

ter to her had been written in the open air. All insensibly, some happy freshness of the open seems to creep into it.

Manufacturers are learning about were given this spring, especially hortations to write letters were ing highly popular. sounding everywhere in the air. With one of these light, flat things on the lap, letter-writing in the open is as easy as anything that can be imaglned.

Are there new fashions in stationery? demanded Dame Fashion, And then any number of kinds of interesting letter paper lay before her. We have heard a great deal about how trimming is increasing upon dresses, and letter paper seems to have caught the fever. Even old conservative manufacturers, who for years stemmed the tide of letter paper frills, are now giving way and putting out deckle edges, transverse envelope openings and as many colorings as Joseph's coat. Linings have entirely vanished from gowns for women. Dame Fashion might safely offer to give a dollar for every new dress of this year made with an oldfashloned sewed-in lining. And where did those linings go? They hopped right into envelopes. If you buy an unlined envelope—ah, you are sadly out of date !

And how this lazy world is looked for Women Who Care turers saw there were many to whom The youngest and freshest of evel the labor of putting a letter into an aing frocks are made of tulle in all envelope seemed somewhat of a task. the pastel shades that are becoming So for these, there are several varieties of letter paper which combine Cherry red or chartrense yellow in the sheet and envelope, and by a few moire taffeta fashions a smart new deft folds and sealings-there you are, ready for the postman. A thought Scarf is Prominent and Smart in strikes Dame Fashion that, after all, An evening cap is made of pale such were very much the type of selfgreen velvet petals with a cluster of enveloped letters that the Pligrim Fa the soft woolens the fovely model of of Solomon). ### Femininity Marks New Sports Duds

Softer, More Voluminous Silhowette, Subtle Coloring. Intricate Detail.

The new mode which is still show ing the influence of feminialty, is exhibited in the regim of sports clother. Even coats entirely suited to activities in the sports world are showing traces here and there of a feminine feeling.

Various points that mark this trend are seen, for instance, in the tendency toward a normal waistline, the softer more voluminous silhouette, the subtle coloring and intricate detail. The sports coat is, of course, seen

in all fabrics and in all colors and in a variety of cuts. There is seen among these new models the sports coat for beach and mountains of white flannel with its loose silhouette and slight tendency towards the voluthis, and innumerable gifts of light missous. Then there is the collariess weight and inexpensive portfolios coat of bright velveteen-or angora with chevron stitcher edges, which, in about Mother's day time, when ex- its dash and colorful appeal, is prov-

LIGHT MAY DE THROWN

ON PLEISTOCENE DAYS. In an attempt to throw further light on the debated question of whether the human race existed on the American continent is Pielstorene time (the period to which the stactors sweet the continent), the Smithsonian inolioskag a goldines al northula logical expedition to Ploride Dr. J. W. Gidley, sailstant curntor of vertebrate paleontology in the National museum, is in charge.

The expedition will concentrate Its activities in the neigh borhood of Vero and Melbourgo on the east coast. Where work found skeletal remains of man in what appeared to be Pielsto cene strate.

There are three principal geo logical strate in the area in question, designated as Nos. 1 2 and 3 reading upwards. In both the places where human bones were found, earlier fover tigotioms by Smithsonian expeditions under Doctor Gilley have shown the presence in layer No. 2 of fossil animal bones definitely of Pleistocene age. Many of the animal bones found in the lower part of lay. er No. 3 were also definitely of this age, but they were often mixed with bones of more modern opecies.

Layer No. 3 thoughout contained numerous evidences of bones and artifacts, though apparently of no great antiquity, while no remains of this character were found in the E Why Children Laugh lower portion at least of No. 2

Many paleontologists and anthropotogists have accepted these facts as evidence that man actually existed in North America in the Prolatocene. Others have questioned this conclusion and prefer to explain the Melbourne finds as the result of hurricanes or other catastropizie natural causes, burying later man in Pielstocene
