White Blouse Trimmed  
in Black; Cape Back

A black-and-white costume idea for your "midday" spring wardrobe. The blouse shown in the picture shows a cape back, while the black hat is circular. Black hat, black gloves and white hose complete the outfit.

### Shoes Should Be Dried at Room Temperature

This spring's rage for shoes of all white leather or with white leather trim makes it worth while to suggest that all of the white leathers which have a suede finish—genuine buckskin of buck-balanced catfish—should be cleaned with a bristle brush, swabbed with the liquid white cleaner which the market affords and, upon drying completely, should be brushed lightly in one direction with the dry brush to straighten the nap.

Of course there are the standard warnings that have been handed along to shoe users from generation to generation—Dry wet shoes slowly at room temperature and not on a radiator or the heat of a fireplace; don't put shoes on a steam pipe and don't put shoes on a steam pipe; don't put shoes on a steam pipe; don't put shoes on a steam pipe.

### Summer Sports Prints Will Be Full of Dash

All summer sports wear prints must be "young" and fresh-looking to be popular. Checks, plaids, stripes, dots and diagonals are sponsored as having the right amount of dash for sportswear, especially when they are in bright colors and treated in novel asymmetric ways as well as in the classic tailored effects. Modernistic patterns in two or three shades of bright colors or two intense bright colors on white or pale grounds are also reserved to sports wear.

### Hand Bags to Harmonize With Milady's Costume

The new hand bags are being featured in leathers and color combinations that will harmonize with the costume. The designs, too, have been inspired by the recent trends in both suits and dresses. More detail is given to the frames, handles and the use of applique work.

## Catholic Womens' Club Will Elect Officers On Monday Evening

Mrs. Frank T. Curtin Has Been Nominated for President of the Club—Miss Katherine Weisenborn and Miss Alice F. Kirk, Vice-Presidents—Other Candidates Are Selected

The annual meeting of the Catholic Women's Club will be held at 8 o'clock next Monday evening, April 8th, at the club house, and officers for the new year will be elected. The following nominations have been made:

## Papal Stamps Sold in Spain

Rome, April 4.—Special papal stamps, bearing the likeness of Pope Pius XI with the triple crown or tiara, and that of King Alfonso XIII of Spain in uniform, helmet and white plumes, have been authorized to be sold in the cities of Toledo and Santiago di Compostella, in Spain, for the benefit of the Roman committee for researches in the Catacombs.

## Nuptial Events

**MURPHY—MULLER**  
Miss Mary T. Muller, of LeRoy, and Joseph A. Murphy, of Hastings, were married on Monday morning in St. Peter's Church in LeRoy. Rev. John E. Muller performed the ceremony.

## Business Bits

**Briefly Broached**  
John J. Burke, treasurer of the Rochester Packing Co., addressed the Rochester Association of Credit Men, and the Rochester Sales Managers' Club at the Chamber of Commerce at noon today. He spoke of "Credit Responsibilities of the Sales Manager," and his talk was greatly enjoyed.

### Used Flour Bags Can Be Very Easily Dyed

Time was when you could recognize the flour bag garment hanging on the line by the faint outline of the trade mark and by its creamy color. Nowadays women not only take pains to get out all the inked stamping, but have become so skillful with the dye-pot that they can produce the most charming colorful articles whose flour bag origin is positively beyond detection.

Keep the Material Stirring Over and Over.

To get the bags ready for dyeing, rip them and remove the stamping by soaking in kerosene overnight, and then washing out in warm water, or by using javelle water. Boiling will not only remove any lingering traces of the stamping, but also takes out the dressing thoroughly, which helps the goods to take a nice even dye.

### Elements in Skim Milk Sure to Promote Growth

Farmers have long known that there is nothing to equal skim milk for making calves, little pigs and little chicks grow fast. We now know, too, that the skim milk solids are equally important for babies.

### Belts Are Prominent in New Spring Fashions

With the acceptance of the tuck-in blouse and the new swagger suits, belts are gaining prominence. One of the new models to be worn with a tweed suit and blouse of beige satin, has the back part made of the same tweed and the front, sides and loops of brown suede.

## The Catholic Women's Club

The Catholic Women's Club has numerous activities planned for the month of April. Inspired with a fine sense of civic pride, the Club started its Easter week activities with a bridge party for the benefit of the fund for the Rochester Civic Orchestra. This party was held on Tuesday evening at the club house, and was under the auspices of the Catholic Women's Club Chorus.

On Thursday afternoon the Maintenance Group of the Club gave a tea, at which Miss Mary McCarthy entertained by a splendid talk on "The New Negro", an illuminating and optimistic outline that was greatly enjoyed.

### LAY APOSTOLATE NEED IS SHOWN BY SURVEY MADE IN SYRACUSE

American citizen who is a Catholic? Does the history of the Catholic Church in other lands and in other times justify the charge of undue interference with world-affairs and national policies?

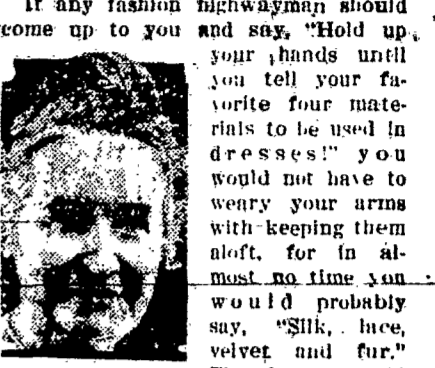

To the first question 25 answered Yes and 25 No. Twenty-seven answered the second question affirmatively and 23 negatively. The third question brought 46 affirmative, and only 4 negative answers. Question No. 4 was answered Yes by 28, and No by 22.

### Had Advantage of Study Should These Baptists Happen to be Speaking the Mind of American "Evangelical" Protestantism as a Whole, the Case Would be Equivalent

Should these Baptists happen to be speaking the mind of American "evangelical" Protestantism as a whole, the case would be equivalent to the case of the Catholics. It is not my notion that a majority of American non-Catholics are inimical to the Church and disposed to harass her. On the contrary, we know that she enjoys a larger freedom and security in the United States than has been permitted her even in countries nominally Catholic.

## Dame Fashion Smiles

By Grace Jewett Austin

If any fashion highwayman should come up to you and say, "Hold up your hands until you tell your favorite four materials to be used in dresses!" you would not have to wince your arms with keeping them aloft, for in almost no time you would probably say, "Silk, lace, velvet and fur."

The general trend of the evening gown, or "formal," as college girls delight to call them, is distinctly longer. In many a household this spring some such a dialogue as this has taken place:

### Cut-Away Effect Used in New Spring Jacket

Showing a very smart and distinctive tailleur ensemble of gold rayon crepe and black rayon crepe which features a new note in jackets—the cut-away effect.

### Milady's Accessories Are Still on Increase

Since the French couturiers have taken over the designing of accessories, no item of dress is neglected by their establishments. An evening gown with their nowadays is merely the beginning. With it must be displayed appropriate jewels, evening bag, vanity case and fan, as well as the proper coiffure, perfume, slippers and stockings and handkerchiefs.
