

Four Horsemen Of Notre Dame Are Coming Back

Notre Dame, May 23.—The famous four horsemen of Notre Dame who rode over the national gridirons in 1924 to a national championship—Don Miller, Harry Stuhldreher, Elmer Layden and Jimmy Crowley—the greatest backfield of football history will return to Notre Dame on May 30-31 and June 1, for the five-year reunion of their class, the Class of 1925.

With them will be the famous "Seven Mules" who battered the precarious paths through which the stellar backfield squirmed and ran to touchdown after touchdown against the most brilliant of opponents.

Members of the class returning are: Don Miller, president of the class, assistant coach at Ohio State; Jimmy Crowley, head coach at Michigan State; Elmer Layden, head coach at Duquesne U.; Harry Stuhldreher, director of athletics at Villanova; Adam Walsh, captain of the '24 team, assistant coach at Yale; Johnny Weibel, former assistant at Vanderbilt, who is finishing up a medical course; Noble Kizer, head football coach at Purdue; Joe Bach, who is with Layden at Duquesne; Edgar "Rip" Miller, assistant coach at the Navy; Charles "Chuck" Collins, head football coach at the University of North Carolina; Ed Hunsinger, with Stuhldreher at Villanova; and the others of those twenty-two men whose graduation in one year would have taken the heart out of almost any coach except Knute Rockne.

The Monogram Club of the University is planning its annual luncheon to bring together this Championship Team of '24 with the Championship Team of '29.

K. C. Bowlers Elect Officers For 1930-31

The Knights of Columbus Bowling League, composed of 16 teams, and divided into the American and National Leagues, held its annual meeting and banquet recently and elected officers for 1930 and 1931, as follows:

American League: President, Kinney; vice-president, Henry Prescott; secretary, John Kavanagh; treasurer, N. Owen.

National League: President, Ray McDonald; vice-president, Leslie Meade; secretary, Ray Smythe; treasurer, James Itley.

Members of the Board of Directors were elected as follows: Wesley Lang, August Zimmerman, Frank Suter, Charles Steinkirchner and William Harris.

The meeting and banquet were held in the Columbus Civic Center dining rooms, and Caterer Lang served a splendid dinner. Charles Raymond was chairman of the banquet, and a good one. Grand Knights Doyle and Daniel F. Fitzgibbon gave unique acts. The Rev. Dr. William E. Cowan, Chaplain of Rochester Knights of Columbus, was a guest of honor. The past season was a successful one, and the bowlers are looking forward with enthusiasm to another one.

Notre Dame Will Open Golf Course At Commencement

Notre Dame, May 23.—Golf which bids fair to usurp the National Pastime throne, is a prominent feature of the 86th annual commencement of the University of Notre Dame, through the opening of the William J. Burke-University Golf course, 18 holes, recently completed on the beautiful 1200-acre campus.

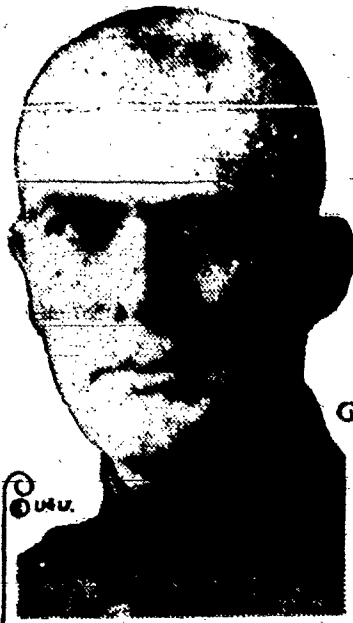

The course was largely made possible through a gift of the late William J. Burke, manufacturer, Portmouth, O., and was developed and completed after Mr. Burke's sudden death last year by the University.

Arthur West, golf expert, is in charge of the course. A self-terminating annual merit is representing the University this year in collegiate competition.

Catholic Summer School Will Open on June 30th; Father Duffy in Charge

(Continued from Page One)

The following year ground was obtained on Lake Champlain, three miles south of Plattsburgh. The lectures were delivered in the opera house and the visitors found accommodations in the hotels and private houses of the city. After two seasons formal possession was taken of the site. The movement

REV. FRANCIS P. DUFFY, D.D. (President, Catholic Summer School of America)

which started under the unassuming name of Summer School, has developed into a great summer university where thousands of visitors from all parts of the United States and Canada assemble to attend lectures on Catholic teaching in a spot made beautiful by nature and sacred by hallowed memories reaching back to the early struggle for possession and maintenance of our national independence.

Three Phases of Life

The Summer School expresses the three phases of normal student life: educational, social and recreative. But, above all, the educational idea stands forth. This is the reason of the school's inception and of its continued existence. It purposes to analyze various problems and to apply to their solution the principles and ideals of Catholic teaching. It is true that every Catholic educational institution has the same end in view, but the Summer School differs from them all, not in the matter but in the form of its teaching. Most of its students—if they may be called students—have already passed beyond the period of school days and are actively employed in business or professional life. Hence the practical form of instruction through lectures has been adopted. To a great extent the lectures are popular. They are based on something common to lecturer and hearer and are so imparted as to quicken and maintain the interest of the hearer.

Those attending the Catholic Summer School do not sacrifice the pleasant diversions which they have a right to enjoy during their summer holidays. At Cliff Haven they may enjoy swimming, boating, golf, tennis and everything else that goes with a vacation.

Bishop Appeals To All Parents To Co-Operate With Authorities In Campaign Against Diphtheria

The Rt. Rev. John Francis O'Hara, D.D., Bishop of Rochester, has sent a letter to all pastors in the Diocese, asking their co-operation with State and local public health authorities in protecting children from diphtheria.

Last year, in the Diocese of Rochester, the Bishop's letter says, there were 244 unnecessary cases of this disease, and 19 tragic deaths. Pamphlets are being prepared for each parish school with the co-operation of the Bishop and the pastors are urged to have these given to the children to be taken by them to their parents. The pamphlets contain the following letter from Bishop O'Hara to parents:

"To our Catholic Parents of Rochester and Vicinity:

"There is at present underway an anti-diphtheria campaign, being conducted by the Department of Health of the city and state, in behalf of the little children of preschool age, who may not have been reached in previous efforts of this kind.

"According to the best medical authorities of this and other countries the scientific means now being adopted by our health authorities to combat diphtheria have met with the greatest success, and are not only cutting the death rate of diphtheria in half, but in some instances are practically wiping out the dread disease. Such was the case in the City of Auburn where the highest death rate for diphtheria in the entire state prevailed at one time. We are told that, after a campaign of two years, no deaths from diphtheria were recorded for a considerable period of time.

"A Matter of Great Concern

"As this matter affects vitally every one of our children, in whose little bodies are found and bred a great bearing on human life and human happiness, it should be and is of the greatest concern, not only to health authorities, but also to all those who are interested in the welfare and guardianship of child life. Consequently, the Bishop of the diocese, under whose care thousands of children are enrolled in our parochial schools, has this matter thoroughly at heart and wants to appeal to our parents to co-operate actively with city and state health authorities to the end that the terrible scourge of diphtheria, which annually menaces child life, may be driven out of the community. Thus we shall only be doing our full duty in protecting the little ones from physical as well as moral harm.

For Healthy Children

"In doing this, we shall bring blessings upon our families and homes which have been blessed by God with children, and we shall be helping the community and the nation in the preservation of one of the greatest assets of our national life, namely, strong and healthy children.

"Hoping that our good parents will heed the advice of our medical authorities, and will endeavor to avail themselves of this special opportunity for protection against sickness and disease, and praying God's blessing upon all those who are striving to help in the matter of protecting the little ones, I remain,

"Faithfully, your shepherd,

"JOHN FRANCIS O'HARA,

"Bishop of Rochester."

Important Meeting Held

An important meeting was held Tuesday noon this week in the Hotel Seneca, when State Health Commissioner Thomas Larran, Jr., of Albany was present at the 12th annual meeting of the Tuberculosis and Health Association of Rochester and Monroe County.

Dr. Porran told of the State campaign against diphtheria, and he commended Bishop O'Hara heartily for his excellent assistance and co-operation.

"Since 1926 when the statewide campaign to wipe out diphtheria was started, over 600,000 children have been given toxin-antitoxin," State Health Commissioner Porran said in his message. "The State is interested in saving children you can help by protecting yours against diphtheria now.

"Treatment with toxin-antitoxin is harmless and painless, it requires only three weekly visits to your family doctor or to a clinic. This simple treatment guards your child against diphtheria.

Joseph P. MacSwiney Honored

Joseph P. MacSwiney, who has long been interested in the work of the association, was elected Chairman of the Rochester Committee of the Association, an honor he has well deserved.

Bishop O'Hara was present at the meeting, and gave an interesting talk. Others present included Harry H. Crowley, chairman of the Monroe County Board of Child Welfare, the Rev. John M. Duffy, supervisor of education for the Diocese of Rochester; Dr. Walter A. Callahan, President of the County Medical Society; Raymond H. Greenman, executive secretary of the Tuberculosis and Health Association.

St. Andrew's Mission Day On May 28th

The students of St. Andrew's Preparatory Seminary will celebrate their annual Mission Day on May 28th. Mass will be celebrated at 7 A. M. for the success of the Missions, and all the students will attend in a body and will receive Holy Communion. Following the Mass, a talk will be given on "Missions" by a missionary priest. Breakfast will follow, and the students will then adjourn to the Social Hall for the election of officers for the coming year.

At 10:30 o'clock the St. Andrew's students cross bats with a baseball team composed of the young students of the Diocese. The game will be played in South Park. The following priests are expected to be in the lineup:

The Rev. Leo C. Mooney, Rev. Howard Geck, Rev. R. J. Fox, Father Krolak, Rev. Gerald Lambert, Rev. Henry Manly, Rev. William J. Bogdan, Rev. William J. Naughton, Rev. Leo C. Smith, Rev. George C. Vogel, Rev. Henry C. Biele, Father Herring, Rev. C. J. Hogan, Rev. Charles Reynolds.

A cordial invitation is extended to all priests to attend the game, and their presence will be greatly appreciated by the students. The game is being played in the forenoon, because all priests will be busy hearing confessions in the afternoon in preparation for the feast of the Ascension.

439 To Graduate From Notre Dame May 30, 31, June 1

Notre Dame, Ind., May 23.—Friday, Memorial Day, Saturday and Sunday, May 30 and 31 and June 1, will mark the 86th and latest annual commencement of the University of Notre Dame.

A class of 439 graduates will form the nucleus of the exercises. The "War Classes" of the University, Spanish-American and World, will unite in special Reunions, observing Memorial Day with a Field Mass. The Mass will be celebrated by a former World War chaplain and president of the University, Rev. M. J. Walsh, C.S.C., and an address will be given by another former World War chaplain, the present president of the University, Rev. Charles L. O'Donnell, C.S.C. Two companies of the Indiana National Guard, of South Bend, will assist in the Memorial Day exercises, as well as the Reunion Classes, alumni of other years, members of the Community Boy Scouts from South Bend, and Col. Wm. J. Boynes, Civil War Veteran and an alumnus of the University College of Law.

Roosevelt Asks Three Millions For Porto Ricans

Washington, May 23.—Col. Theodore Roosevelt, Governor General of Porto Rico, was in Washington last week, insisting that the Congressional Appropriations Committee would provide a relief fund of \$2,000,000 for the inhabitants of Porto Rico. He said if this was not done it would cause economic chaos there and during the coming year forfeit the lives of numerous children.

Following the closed session, the Governor indicated that he was hopeful of favorable action by the committee.

Colonel Roosevelt said he explained that 60 per cent of Porto Rican children are badly undernourished as a result of the economic depression which has gripped the island since the last disastrous cyclone.

The tuberculosis rate, he said, was four and a half times greater than that of the United States, and greater than in any country of the Western Hemisphere. He added that the Porto Rican malarial rate is fifty times greater than that of the United States, that out of the total insular population of 1,500,000, there were 60,000 cases of hook worm.

Colonel Roosevelt is honorary chairman of the relief committee organized by American Catholics to help the suffering Porto Ricans, and he is a serious worker with Bishop Willinger, head of the Committee, and Bishop of Porto Rico.

Only a Phase

The beginner does, indeed, often experience the sweetness of sensible love; but he may not rest in it. Such love is powerless to satisfy him, and he easily transcends it, raising himself to God by the higher powers of his soul.
