**Porto Rico's Sad Plight Told by Theodore Roosevelt, The Governor of the Island**

**Economic Conditions Are Desperate, Health Conditions Dreadful, and Serious Depression is Felt Throughout the Island—Some Facts**

Washington, Sept. 19.—That the island of Porto Rico, whose people are mainly Catholic, is in a serious condition, is a fact convincingly set forth in the first annual report just issued by Theodore Roosevelt, Governor of the island since October 1929. The report discloses an appalling condition of public health and makes no effort to minimize serious economic conditions.  
"The people of Porto Rico," Governor Roosevelt says, "are loyal American citizens and we believe that, desperate though the problems of Porto Rico may be at this time, there is a practical solution for them which can be supplied by work on the island and aid from without the island, which will create a proper and adequate economic condition."  
Asserting that when he took office, "we were struggling with three problems—disease, poverty and an island revenue that was insufficient to meet the budget then in force," Governor Roosevelt says:

**A Prey To Diseases**  
"We were and are a prey to diseases of many kinds. In the fiscal year ended June 30, 1929, 4,142 of our people died from tuberculosis. Our death rate in this disease was higher than that of any other place in the Western Hemisphere, and four and one-half times the death rate in the continental United States. Our death rate from malaria was two and one-half times the rate in the continental United States.  
"Phrasing it differently, some 35,000 people in our island are now suffering from tuberculosis, some 200,000 from malaria and some 600,000 from hookworm. Besides hookworm, there are a number of other intestinal parasites that cause great damage; among them are ascariis, bilharzia, trichinella, etc.

**Should Be Health Resort**  
"This condition is all the more deplorable because the climate here is exceptionally healthy. We should be nearly free from such plagues as tuberculosis. We should be considered as a health resort. We have not even a health department. The Department of Health, but the funds at its disposal have been, and are, entirely inadequate to face the problem.

"With the intestinal parasites such as hookworm, the whole matter hinges on soil pollution. In order to fight this effectively, a costly and far-reaching campaign must be undertaken, which it is entirely beyond our insular resources to finance.  
"In so far as the mountain districts are concerned, the mountain folk get little medical attention of any kind in 75 out of the 77 districts."

Governor Roosevelt says when he took office, more than 60 per cent of the people were out of employment, while the financial situation of the government was "desperate," and a deficit was being piled up which threatened to total \$2,000,000 at the end of the fiscal year.  
The U. S. Government appropriated \$1,500,000 for relief, the

**Mission Opens On October 5th In St. Ambrose's**

On Sunday, October 5th, a mission of one week for all people of the parish, and for any others who wish to come, non-Catholics included, will be opened in St. Ambrose's Church, Empire Blvd., by the Vincentian Fathers from Niagara University. There will be Masses every morning, with short instruction, and benediction every evening, with sermon.  
The Rev. Walter A. McCarthy, rector of St. Ambrose's Church, is hopeful that capacity congregations will fill the church at all services. The mission will be for men and women together, and there will be a special mission for children at convenient hours the same week. The Vincentian fathers are eloquent and experienced missionary priests, and their mission in St. Ambrose's Church will undoubtedly be fruitful of much good.

**Catholic Club September Book Is "Black Soil"**

**"A True Friend"**

When skies are blue Our friends are true. And all the world seems bright; When skies are gray Friends go away, And life seems dark as night.  
Why this is so We do not know, We simply know 'tis true; But let us smile, Yes, all the while, Let skies be gray or blue.  
For our God above Is a God of love, He cares for us each day, He will see us through  
When skies are blue, And when the skies are gray,
