

Church Picnic Will Be Held On Labor Day

Big Annual Event at King Ferry Will Attract Many Hundreds of Visitors to the Village.

King Ferry, Aug. 21—Our Lady of the Lake Parish at King Ferry is making ready for its annual outing on Labor Day, the second under the present pastor, Rev. George M. Kaib.

The parish has conducted annual outings for a great many years and has gained an enviable position in this phase of parish activity.

The outing in King Ferry has taken on the nature of an old-home day for all former residents of that town, and they return in great numbers to join in the festivities of the day.

King Ferry should pay it a visit on Labor Day and enjoy the hospitality of the inhabitants of the Finger Lakes village.

King Ferry is situated midway between Auburn and Ithaca in a rich agricultural section of Cayuga Lake, one of the gems of the region.

King Ferry gets its name from John King. In 1789 King, accompanied by three relatives, came from Pennsylvania to the present site of Union Springs.

Later King built the second log house in what is now the town of Geneva. As more people settled, he established a ferry in connection with the hotel life kept on the lake shore, hence, the name King Ferry.

The village is very picturesque. The church owns its own picnic grounds and spacious Northville Hall. The event each year is attended by thousands of persons.

Featuring this year's outing will be St. Andrew's Boys' Band from Rochester, comprising musicians from seven to 17 years of age.

Baseball at 2:30 p. m. will be a highlight on the sports program and there will also be games and other athletic events.

The women of the King Ferry parish are famed for their culinary arts and a chicken dinner, with all the trimmings, will be served from noon to 2 o'clock.

Supper will be served at 5 o'clock and afterwards dancing in the evening in the parish hall.

Labor Day will find King Ferry and Our Lady of Lake picnic the objective of hundreds of pleasure seekers, who will enjoy a motor trip through the beautiful Finger Lakes section of Central New York.

At the close of the picnic a beautiful Westminster Chime clock will be disposed of as a gate prize.

All friends and former parishioners are reminded of this homecoming day, Sept. 7th, and are invited to spend the day amid old-time scenes.

Take route to Auburn then southern route 34B to "King Ferry Hall" and picnic grounds.

Hunger Now Good Form Every school child used to be asked these two questions: Do you live to eat? Or do you eat to live? When he replied that he ate to live, his teacher was gratified by his intelligent discrimination.

Now the fashion has changed—appetite is stylish, and hunger is in good form, according to the etiquette tipsters of the Woman's Home Companion. They assert that society is now unanimous in ruling that nowadays no one wishes to eat merely to live.

It is recognized frankly "that eating has a part in mental happiness, efficiency and good health."

Odd Headache "Cure" In the sixteenth century to cure a headache, the patient took a mixture of pepper and mustard, rolled into a ball about the size of a bean, and rolled it on his tongue. He was to eat nothing, but was to keep rolling this awful mixture in his mouth until cured, says an article in a Boston paper.

The "evil humors" of the head were supposed to be drawn by the pellet in the mouth. Without a doubt, the patient thought he had the evil humors in his mouth after rolling the mixture around for a few minutes.

We must not neglect a good inspiration through fear of difficulty; for the greater the difficulty, the greater the reward, if we have generously surmounted the first.

Water Supply Long a Worry An occasional water shortage is nothing new in New York. Even as far back as 1780 it was a matter of concern, as indicated by a writer who said:

Uncle Sam's Statutebook Under existing statute laws our battleships and armored cruisers are named for states of the Union; our cruisers for cities. Torpedo boat destroyers are named for distinguished naval officers, for heroic enlisted men.

Chinese and Anesthetics Some of the Arabian authorities speak of a form of anesthesia by inhalation, wrote Charles H. Lawall in "Four Thousand Years of Pharmacy." This probably was derived from the Chinese, for Lin T'o, the Hippocrates of China, is said to have taught this practice and used for the purpose a combination of aconite, datura and henbane.

Red Hat Bestowed on Cardinals as a Symbol The red hat, the most conspicuous feature of the insignia of Roman Catholic cardinals, dates as a vestment from 1215. In that year it was bestowed on secular cardinals by Pope Innocent IV as a symbol of their readiness to shed their blood for Christ and the church.

Attacked Contingent At Portlough, County Antrim, large crowds marched around the town and smashed the windows of several shops. Seizing a handcart, the crowd used it as a battering ram against the gates of a convent, but the gates stood firm.

Trucks of police were roused from Belfast to restore order, and the special constabulary was mobilized. The head constable of the district was slightly injured when he was struck by a flying bottle during the fray.
