Floor Upkeep Cost 87-89 Andrews St. Main 8078 Its makers claim Dri-Brite Wax, a new discovery, requiring neither rub

new discovery, requiring neither than bing nor polishing, cuts the cost of floor maintenance in half, costing Doctor Curran year to keep floors in condition. Dri-Brite is now extensively used by building maintenance heads of every classification, large users having found that its use saves about

one-half the former cost of floor maintenance. Its simplicity of application saves a tremendous amount of labor because polishing is not required. Dri-Brite, a liquid wax, dries to a bright, hard, durable finish in 15 to 20 minutes, and this first covering does not have to be removed in order to make a second application later, as is the case with most floor finishes.

The average kitchen and pantry floor, with its 16 to 20 square yards of linoleum, can be refinished with Dri-Brite wax at a cost less than one dollar, using a soft cloth, short strand cotton or lambs-wool mop. just as you would wipe the surface with water. The operation is so simple that any one, even children, can successfully refinish any floor. Rochester Janitor Supplies, Inc.,

distributors of mill and janitor sup-plies, 250 State Street, is the local dealer for Dri-Brite Wax. Readers who would like to experience the thrill of beautiful floors without the back breaking rubbing and polishing ordinarily required, are urged to com-municate with the Rochester Janitor Supplies, telephone Main. 6496, for further detailed information.
