# CATHOLIC BUYING POWER

## AND ITS INFLUENCE ON THE CATHOLIC PRESS

Despite the very enormous circulation of the Catholic press as a whole in this country, it has been neglected by many of the leading advertisers. As a consequence it has suf-fered financially since most publications devend upon advertising revenue for their existence. With every inch of advertising used in our press Catholic influence becomes so much stronger.

The Catholic Press Association is sponsoring a movement to obtain the cooperation of Catholic readers to patronize advertisers who support our publications. You are one of the 6,647,066 subscribers of our Catholic Press. Your influence is important and your own purchasing power added to that of each subscriber creates a market probably unequaled by any other class of consumers. All things being equal you could in many instances favor advertisers using our press.

Mention by name the particular publication wherein the advertisement appeared. This concerted effort on the part of Catholic readers will result in full recognition of our combined purchasing power and attract to us larger advertising revenue and help build a stronger press in every way.

The Catholic Courier and Journal
