Direct Drive Against Unclean Films

The Catholic Bishops' Committee on Motion Pictures, at Its recent meeting in Cincinnati, were again promised by representatives of the film producers that reforms would be instituted. The committee announced that it would continue its plans to extend the Legion of Docerecy to every city and town in the United States. Scated at the council table in the Archbishop shouse are, left to right; Bishop John J. Cantwell of Los Angeles; Archbishop John T. McNicholas, O. P., of Cincannail, chalring a lighor John F. Noil of Ft. Wayne, and Bishop Hugh C. Boyle of Pittsburgh.

Is Their Business

Above all this drive is not an attempt to interfere without warrant in the affairs of others. It is idle more or less silly, as Miss Fentanne wonici say-to tell this army of crusaders to "mind their own business," because, at last they have recognized that this is their business. Neither is it an answer for an offending producer to say that he is only giving the public what it wants in portraying lust and crime on the screen.
What a defense!—the age old excuse of drug-peddlers and panderers to vice in all times; even if it were true that the public wants evil, it would not be a valid reason for supplying

But it is not true that the public wants it. The whole history of the screen from "The Birth of a Nation" to "Little Women" proves that people want intelligence and charm on the screen and will pay to get it. The careers of Mary Pickford, Charles Chapin, George Arliss, Douglas Fairbanks and Marie Dressler prove the same thing.

The producers know this as well as we no. "Why, then," is the exasperaied guestion today "do some of them insist upon forcing obscenity into their patrons' eyes?" Some accuse them of a diabolical desire to spread evil for its own eaker but this is not true: there is no devilish impulse to corrupt the public just for the fun of it on the part of these business men. The real reason is that they too are Hollywood complains that this moron the spot.
