STATE DEPARTMENT WILL PROBE ACTIVITIES OF MEXICO CONSULS

(Continued from Page One)

pealing "to our duly elected representatives to use every power and influence at their command to the end that the Peace of Christ may be restored in Mexico and that those officials responsible for reprehensible acts here beneath the flag of our beloved United States may be removed instantly."

Two Instances Cited

"Two specific instances of such interference," the Holy Name Union states in the letter sent to President Roosevelt, "are hereby charged: (1) by Alejandro V. Martinez, Mexican Consul at Los Angeles, California, and (2) by Hermolao E. Torres, Mexican Consul at San Bernardino in this State, and by Alvaro Dominguez, Chancellor of the Consulate at said San Bernardino."

"Against all these acts," the letter also says, "we, as American citizens, loyal to our country and devoted to her principles, vigorously protest. We appeal to you, Mr. President, as our chief executive, to take all measures which may be necessary to put a stop to the further commission by the Mexican Government within these United States of acts of meddling in our local affairs and spreading false and malicious propaganda, and extending a censorship which in any case can have no juridical validity outside of Mexico itself. It is common knowledge that our own Government has done more than remain neutral in the matter of Mexico's present internal affairs. Without the protective support which the United States has given to those who exercise the powers of government in Mexico the latter would long since have been deposed from power by an outraged people. If the United States were really neutral the political, economic, social and religious disturbances within Mexico might be solved to the greater satisfaction of the majority of the Mexican people."

In setting forth its protest to the President and explaining the attached documentary evidence the letter of the Holy Name Union sets forth that there are many thousands of persons of Mexican birth or extraction resident in and near Los Angeles, that on the Feast of Our Lady of Guadalupe, Patroness of Mexico, observed on Sunday December 9 a religious parade and demonstration was held under the auspices of the Holy Name Union as a part of the campaign of prayer for the restoration of religious freedom in Mexico; that more than 20,000 persons took part in the parade, and that "by far the majority were citizens of the United States."

Consul's Interference

"On Friday, the 7th of December, preceding the celebration," the letter continues, "there was published in La Opinion, a daily newspaper in the Spanish language issued in this city, a protest by Alejandro V. Martinez, the Consul for Mexico here, against the parade . . . On inquiry of him Mr Martinez admitted he issued the statement. His description of those who organized the parade as 'a group of persons already well known as the traditional enemies of the economic, social and cultural progress of Mexico' is a gratuitous insult not only to the intelligence of the American people but more especially to all persons, citizens of the United States of America or otherwise, who were connected with or took part in this religious demonstration and voiced their protest, as they had the right to do under our law, against the inhumanity of Mexico's governors in matters of conscience and religion. His effort to dissuade loyal Mexicans from joining in a religious exercise held here can be considered in no other light than as a highly reprehensible interference by the accredited representative of a supposedly friendly power with the exercise in the United States of America of freedom of religious worship and practice. In such way the Mexican government even attempts to extend its tyrannical control over the consciences of and dictate in matters of religion to Mexicans residing abroad in freer climes."

In this regard may be noted the recent activities of radical Mexican groups in this community. Preceding the holding of the parade and services marking the celebration of the Feast of Our Lady of Guadalupe there was circulated in Los Angeles a printed hand bill a sample of which is enclosed herewith.

Adolfo Moncada Villarreal named in the hand-bill is a former employe of the Mexican Consulate here. In the late afternoon of the day of the celebration, December 9 last, the Catholic Church of Nuestra Senora de la Soledad, at No 4749 Brooklyn Avenue, Belvedere a suburb of this city, was desecrated. Through the culprit was caught and punished by the authorities the connection between his offense and the inflammatory utterances emanating from or sponsored by Mexican governmental authorities is obvious to all who know local conditions."

Hierarchy Assailed

In San Bernardino in this state the Rev. Gabriel Ferez, a citizen of the United States and the Superior of the Augustinian Recollect Fathers who have charge of Our Lady of Guadalupe Parish there, began preparations in November for the annual procession in honor of Mexico's patroness Our Lady of Guadalupe. The route of this procession was extended to include other churches of San Bernardino to permit those participating to make the necessary visits in fulfillment of the conditions governing the indulgences of the Holy Year. El Sol is a San Bernardino Mexican paper published weekly. Its importance lies in the fact that it is generally accepted as the official mouthpiece of Hermolao E. Torres the Mexican Consul at San Bernardino whose jurisdiction extends through our San Bernardino, Riverside and Inyo counties in this state. Torres and Alvaro Dominguez Chancellor of the Consulate did their best unsuccessfully to stop the procession in which nearly 3,000 Catholics participated on the afternoon of December 16th last. Torres the Mexican Consul in addition to writing to El Sol, wrote to the Chief of Police Dan G. Murdock and other city officials of San Bernardino asking that they rescind a permit for the procession. Torres admitting that he had written the letter stated that he considered the staging of the parade a violation of the diplomatic relations and the friendly attitude of the Government of the United States to the Government of Mexico.

Widmer's Unsweetened Grape Juice Health Aid

Of the many products turned out by Widmer's Wine Cellars, Inc., of Naples, N. Y. that are health builders, Widmer's Natural Unsweetened Grape Juice has a wide appeal.

Made of the pure, undiluted juice of the grape it contains only the natural, readily assimilated grape sugar derived from the fruit itself.

Many physicians agree that in numerous cases illness is caused by acidosis or acid intoxication, a condition in which there is a depletion of the alkali reserve of the blood. Widmer's Natural Unsweetened Grape Juice, being not only non-acid-forming, but also one of the best sources of alkaline material, helps to prevent acidosis and thus builds better health.

It contains vitamins A and B and is an invaluable aid to the sick as it not only assists in the recovery but also is an excellent aid in maintaining health. Ask for Widmer's Natural Unsweetened Grape Juice, Catawba or Ives, at your dealers.

ELMIRA HOLY NAME TAKES MEXICO STAND

(Continued from Page One)

of the State—is being pushed forward on this side of the world.

Religion Denied

"The laws of Mexico now require that all education, in public or private schools, shall be under the direction and control of the Director of Public Education; that no religious instruction shall be given in any school, public or private, that no minister of any religion shall teach in any school, public or private; that no school shall be maintained by any religion group; and, among other things, that Socialism must be taught in every school, public or private, and must be taught as the State Department requires it to be taught.

"Communism and atheism thus being forced on the people of Mexico, including the children, is in complete opposition to that American aspiration for real human liberty, under Divine guidance, that is expressed in the last sentence of the American Declaration of Independence with a firm reliance on the protection of Divine Providence we mutually pledge to each other our lives, our fortunes, and our sacred honor.

"Mexican communism and atheism would now hail down on this hemisphere the proud old American banner of individual human freedom that has flown aloft since July 4, 1776, would repay this generous republic for the protection of Mexico under the Monroe Doctrine by repudiating individual freedom would substitute the opinions and the ambitions of a few individuals temporarily in power, for the accumulated wisdom of the ages. They seem to have forgotten that 'man does not live by bread alone.'"

Spirit Important

"The personal rights of a human being include his spiritual rights. When the spirit the soul passes onward, the body remains and returns to a few unimportant chemicals. The important part of the person has gone elsewhere.

"The individual rights of that most important part of every person, the spiritual part, the communists and atheists order abolished, they declare the inferior rights the only rights, they elevate the earthly, deny the spiritual and attempt to rob their whole people, including the little children of the spiritual light that has shone for two thousand years from the Cross on Calvary, illuminating the pathway of struggling humanity toward the ideal of Divine sacrifice and mercy. That struggle has been onward through the centuries toward ideals above and beyond humans but always a higher goal for their aspirations. Communism and atheism substitute the human opinions of aggressive minorities, temporary majorities, for selfish leaders for spiritual aspirations toward that higher idealism based upon Divine sacrifice and mercy. The conflicting concepts are as far apart as Ghengis Khan and Christ.

"The doctrine of individual human rights established on this side of the world a hundred and fifty years ago, and the protection of our sister republics from the tyranny of European kings by the Monroe Doctrine give this nation the right and the duty to speak in defense of those same rights on this hemisphere today.

Rights Sacred

"The individual rights of human being established by the fathers of this republic are as sacred today as they were a century and a half ago. Once upon a time the voice of this little new republic spoke to all the world beside and said to kings and emperors hands off none of your rivalries bitterness and tyranny shall inoculate this new world with your old political diseases. That same republic in its might and majesty of today should again speak especially to those who have been protected by its Monroe Doctrine for over a century and say 'The individual rights of human beings are still sacred on this hemisphere under no new names of communism and atheism shall the ancient disease of mob tyranny and paganism inoculate this western world and destroy those individual human rights.

"The right of individual human beings were written by the fathers of this republic in their own blood. The ideals of Christian morality have come down to us since Calvary.

This nation can still read that writing of its fathers and it still holds true to the Christian idealism that stated in its magnificent Declaration of Independence its firm reliance on the protection of Divine Providence.

"To be true to its founders and to its ideals of Christian morality this nation must boldly state its opposition to Mexican or any other communism and atheism that attempt to destroy those American principles of individual liberty fixed in the American Constitution and founded on Christian morality.

Therefore we the members of the Holy Name Society of St. Patrick's Parish of Elmira, N. Y. hereby resolve

That this nation should not stand idly by and permit the theory of Russian communism and of atheism to drive out of this hemisphere, or out of any portion of it, the principles of Christian civilization;

That the Christian principle of God given "inalienable rights of life, liberty and the pursuit of happiness," established on this hemisphere by blood and suffering from Bunker Hill through Valley Forge to Yorktown shall not be displaced by pagan communism;

That the Congress of the United States should declare that this hemisphere is still dedicated to the protection of republics, and that this government will regard the substitution of communistic paganism in place of a republic, in whole or in part, as an unfriendly act, no matter from what source the change emanates.

Physical Director Tells You How to Maintain Health

This week's rule for maintaining health as advocated by Physical Director Wilbur E. Quinn of Columbus Civic Center deals with:

HOW TO BUILD UP WEIGHT

It is doubtful if even the stoutest person is as keenly conscious of physical deficiencies as are the hollow-cheeked, gaunt, emaciated thin people. The cause, however, is usually greatly different. The fat person becomes too stout from over-indulgence, eating and drinking too much, laziness and carelessness about physical habits.

Thin people, who become thin, are thus because of improper digestion, bad elimination, lack of proper assimilation of food, and disease.

You often see very thin people who eat voraciously, yet cannot put on weight. Eating too much is as bad as not eating enough. The stomach is filled with hard-to-digest food, the digestive organs are overtaxed and instead of building good, rich, red blood, the food goes into the intestines in a partially digested condition where it ferments, poisoning the system.

Careful eating is as essential to the very thin person as to the stout person. Eating heavy combinations of proteins, fats and starches is ruinous to any digestion. Swallowing large quantities of partially masticated foods and washing them down with copious quantities of water, or some other beverage, is bound to be injurious to the human body.

Curiously enough, many of the rules for eating prescribed for stout people apply equally to thin people seeking to build up their weight. These rules are general rules of health and when perfect health is attained the body weight naturally tends to become normal.

Avoid eating starches and proteins in the same meal. Eat slowly masticating thoroughly so that the food is nearly liquid when swallowed and thoroughly saturated with the digestive ptyalin of the saliva.

FOODS TO INCREASE WEIGHT

Fat, of course, fat-forming foods, denied to stout people, are prominent in the diet of the thin person. Butter, cream, fat meats, cereals, bacon, nuts, the legumes such as beans, peas, fresh corn, are good body builders. Sugar is one of the best protein sparers. It also saves the fat stored in the body by providing a ready source of energy. Sugar helps to maintain the alkaline reserve of the blood. This does not mean that it is permissible to load up with candy and other sweets.

Fruits should be eaten in abundance. They help digestion, and, after all, correcting thinness is mainly a question of proper digestion and assimilation.

Dangers of Chemical Contraceptives Cited By Noted German Doctor

New York (NCWC)—Defective offspring is cited as one of the greatest dangers of the use of chemical contraceptives, in a discussion of researches by Dr. K. E. Fecht of Germany, printed in the Journal of the American Medical Association.

Dr. Fecht, the article says, has observed one case in which physical defects and another in which both physical and mental defects in children were almost certainly connected with the use of chemical contraceptives and three other cases where such contraceptives were contributory causes to such defects.

Since 1927 the article says, Dr. Fecht has observed more than 500 cases of different kinds of disorders traceable to the use of chemical contraceptives. Dr. Fecht also has observed a number of cases of cancer in which it seemed probable that the use of these contraceptives entered into the history of the disease.
