RESTORED BRAKING

THERE'S a big difference between our RESTORED BRAKING service and an ordinary "re-lining." We remove your old brake shoes and put in brand-new Bendix shoes, factory-lined with the precise type of lining the car maker specified originally. They're ground to perfect "concentric fit" to match your drums.

Give your Old Car "New-car Braking"

Then you've got brakes! They're as good as new! They'll save you money. They'll wear much longer. They'll stay equipped with much less attention. And the price is practically the same. Drive in and let us show you these shoes, in original factory cartons.
