Government Study Urged by Speaker At K. C. Dinner

The annual Christmas dinner of the Geneva Council of the Knights of Columbus was held Monday evening, Dec. 16, at the Kirkwood Hotel. The Rev. Bernard C. Hanna of St. Francis de Sales church was chairman and the principal speaker was the Rev. William L. Walsh of Syracuse. John Davie was toastmaster.

Featuring the program was the singing of songs by individuals, the showing of silent movies made 25 years ago, and a short address by Grand Knight Arthur J. Cowan.

Father Walsh had for his subject, "Principles of Tolerance." Father Walsh stated that at times people take a label at its face value without examining the substance beneath to determine its virtues. "A proper understanding of truth can be obtained," he said, "only by serious consideration of the underlying principles. To remain in error of a thing can only be attributed to mental laziness or stupidity."

"The principal thing I want to point out to you that we must study is our theory of government. In order to determine the true from the false." After enumerating the changes in the systems of government throughout the world, he warned that changes must come about in our own government and in fact, are occurring even now. It is these changes along with the duty of government in general that we must study to gain a proper appreciation of the principles underlying them.

Common Sense Is Urged By Welfare Officer in The Handling of Cases

George D. Bryant, welfare officer for the last two years of the Town of Irondequoit, was a featured speaker at the School for Town Officers session for welfare officers in the Chamber of Commerce Saturday.

Mr. Bryant, whose work in Irondequoit has won him commendation of state as well as local officials, told the welfare officers that good common sense should be used in the handling of cases.

"We welfare officers have a dual responsibility," he said, "to care adequately for the needy and to protect the taxpayers' money.

"Treat persons on welfare with confidential courtesy. The vast majority on relief would rather be working."

Thou hast made us for Thyself, O God, and our hearts are restless until they rest in Thee.—St. Augustine.

INVENTORY TIME

FOR most of us December 31st marks the end of a fiscal as well as a calendar year.

Which makes the days between now and then a good time to review—and where advisable to revise—our financial affairs. With rapidly changing conditions in the business world, this is a particularly good time to take inventory — and to check up, with the aid of competent counsel, on just how we stand as we go into a New Year.

Perhaps your will hasn't been revised for some time. Possibly conditions are entirely different from when you wrote it. The same applies to your life insurance.

Why not between now and January 1st, review [illegible], with our trust and investment [illegible], and go into 1936 confident in the [illegible] that these vital matters are as nearly [illegible] in the light of today's conditions, as you [illegible] how to make them?
