You can, if you wish, arrange to go one way by water on the Great Lakes and return by rail. But since we are here concerned with cruises it is the complete one-day Buffalo to Duluth voyage that is of most interest. Incidentally, you can take your own car along on these cruises using it whenever you wish at the ports.

**Wegman Home-Owned Stores Soon to Open Seventh Unit on Monroe**

Largest Rochester-Operated Market Group Has Record for Growth in Sixteen Years

Monuments to the success of an idea conceived by two Rochester men some sixteen years ago, now stand prominently on the corner of city with four, freshly food, at the corner of the city.

Walter E. Wegman, member of St. Thomas parish and his brother, John E. Wegman, member of St. Ambrose parish, established the Wegman markets on their belief that Rochester women preferred to "do it" their food purchases in one place. If the quality of those purchases was superior and the price advantage obvious from one store, originated upon this idea the Wegman markets have grown to six of the largest and most complete establishments of their kind in the country.

The seventh unit of the Wegman markets is now nearing completion. The new store, near South Goodman street, is promised to be a showplace of what's new, modern and convenient in store construction, arrangement and service. The new Wegman store also is built upon the one-stop service idea, plus the convenience of self-service in the grocery department. Under one roof will be gathered all the food necessities, fast plus or fancy living. Department for meat, vegetables, canned goods, delicatessen, grocery, candy and dairy products will greet the visitor in their allotted places just as they do in the present Wegman stores.

Opening of the new store, early in June, will be accompanied with a gala food carnival... a demonstration of the low prices for better grades of foods that Wegmans have brought to Rochester. The truth of

such low prices is fully borne out by comparison with those in the food advertisements published in nearby cities. A difference that ranges from 5 to as high as 20% without going any farther from Rochester than Buffalo.
