SODALTALK

Recording the Activities of Rochester Parish Sodalities Union

"Catholic Action in this country has been mainly Catholic talk about Catholic Action" is the outspoken remark of a fearless Catholic writer. We understand Catholic Action to be the cooperation of the laity with the Hierarchy We have a chance to modify that statement somewhat by responding to the plea of our Holy Father to pray not only for the persecuted of Spain but also for their persecutors. "We cannot for a moment," he says, "doubt what is left for us to do, to love them (the persecutors) and to love them with a special love that is born of mercy and compassion, and, since we can do nothing else, to pray for them, to pray that the serene vision of truth will illuminate their minds and reopen their hearts to the desire and fraternal quest for the real common good."

Holy Rosary Sodality held its first meeting of the season on the season on Monday, Sept. 21. Father Foery and Father Wheaton addressed the goodly number of Sodalists present urging them to be especially active in Mary's service.

The Sodality is carrying out a novel idea for collecting dues. A cash prize is to be awarded among those who have paid up on their dues by October We hope that every Holy Rosary Sodalist will be eligible for the prie

Eileen McInerney, Chairman of the Apostolic Committee, explained the Big Sister Movement and urged that Sodalists take an active interest in it Definite steps are to be taken for more active participation in the Movement.

Miss L. McHugh, Publicity Chairman, suggested that each Sodality keep a scrap-book of all its activities for the year She also suggested that the Publicity Committee keep the Sodality informed with the Sodality Rules.

Helen Hayes, Chairman of The Social Life Committee, stressed the importance of creating a sociable spirit among the Sodalists

Mary Skelly has been appointed Chairman of the Speakers' Bureau and promises to have a fine supply of speakers ready to talk at Sodality functions.

PROPER COLORS BRIGHTEN WALLS AND RELIEVE STRAIN ON EYES

Surprising transformations of dark, uninviting home interiors, stores, shops, factories and warehouses can be made with proper wall and ceiling colors

Such transformations frequently prove good investments. Relief from eye-strain and the improved disposition of the people who have to live and work in such surroundings result. When the room is finished in a light reflecting color, the atmosphere becomes bright and cheerful, and the additional light relieves the eye-strain caused by poor visibility If a room is insufficiently lighted, the possibility of paint and wall paper colors as well as other means of illumination should be investigated.

Several colors can increase the volume of light in a room. They also aid materially in dissipating or softening shadows through their reflecting qualities.

There is a wide variation in the effectiveness of wall and ceiling surfaces light reflectors. Color is the first factor, cleanliness the second, and texture the third.

White is far ahead of all other colors in reflecting value in all lighting tests, while other colors vary. One scientific measurement rates magnesium oxide, which is not a paint pigment, at 98 per cent and the other colors as follows:

White, 84 per cent; Cream, 68.8 per cent; Ivory, 66.7 per cent; Light Pink, 56.5 per cent; Yellow, 57 per cent; Fleah, 51.6 per cent; Buff, 51.5 per cent; Light Gray, 51.5 per cent; Light Green, 45.2 per cent; Aluminum Gray, 41 per cent; Light Blue, 36.4 per cent; Sage Green, 36.3 per cent; Dark Red, 13.8 per cent; Dark Green, 9.2 per cent; Dark Blue, 6.4 per cent.

One item which may be surprising to those who have not studied the light reflecting values of paints is that aluminum is rated below both green and gray.
