WHAT IS GOING TO HAPPEN TO THE HOME THE CHURCH AND THE STATE?

A YOUNG RADICAL walked up to a priest in Grand Central Station and spit in his face. TWO NUNS WERE insulted by another radical in subway train and told what would happen to them when the radicals ran things. DURING THE PAST few months these things and others have happened in New York, the sort of thing with which we have never had to contend before in the first city of the United States, center of decency, reverence for God and respect for order. A FEW YEARS AGO the manifestations in Spain were mild. Today terror reigns. THIS IS A PERILOUS time in the world. Each day it comes clearer that the greatest danger to sound institutions and freedom of thought and worship lies in the development and growth of communistic governments and parties. In different countries they bear different names: Left Front, Popular Front, Socialist and Workers' Parties, but their characteristics and their aims

are always the same. They have grown in power at a tremendous rate. WE ARE CONCERNED with whether they are taking firm root and beginning to develop in our own country as they have in many of the others; whether through our carelessness and indifference they are being allowed encouragement or aid here. The time to give attention to this subject is today, not tomorrow. Wherever they have started, these movements have begun in a small way. They have succeeded because they found a good proportion of the people either too lazy and easy-going or too blind to halt them until it was too late. WE MUST be practical. In which direction are things running here in the United States? What should we do about it? Should we continue only to talk and write? Let us consider what our present situation is, looking facts straight in the face. ARE YOU going to do your part? (Signed) AMERICAN LEGION AGAINST COMMUNISM (Signed) JAMES E. FINEGAN, President

In Sunday Evenings . . . 7:00 to 7:30 . . . to Hon. James E. Finegan. Telephone Your Friends to Listen In and Hear It with Your Family in Your Home. For in New York Station WSYR in Syracuse. Station WABY in Albany. Station WOCL in Jamestown. Station WEBR in Buffalo.
