# ALTAR WINES in *Excelsis!*

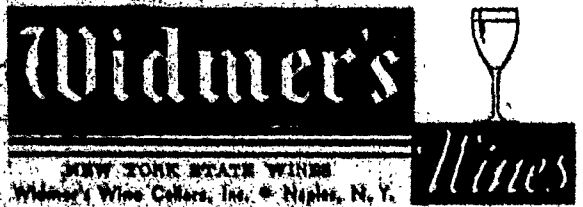

## HIGHEST QUALITY

are produced by neither accident nor advertising artifice. And this is particularly true where wines are concerned.

NOT by accident WIDMER'S WINES achieved highest quality and, down through nearly fifty years, maintained it without variation. Sure skill in the vineyard draws from the superb grapes ripened on the sun-drenched slopes of Finger Lakes vineyards the unmistakable flavor and inimitable quality found in all WIDMER'S WINES.

HIGHEST QUALITY achieved and consistently maintained alone explains the diocesan approval of WIDMER'S ALTAR WINES!

DIOCESAN REVIEW AND  
ANNUAL CALENDARIUM

1937

NEWSPAPER  
OF THE

ROCHESTER  
DIOCESE

Volume VIII

Number 48

## FOREWORD

● THE "REVIEW and Calendar" edition has come to fill a distinctly high place in the regard of our readers. Surpassing any of its predecessors, this edition should please subscribers of long-standing as an old friend who improves with each recurring contact, while impressing more recent subscribers with the advances of their diocesan newspaper.

● The point has been stressed heretofore that this annual magazine supplement is unique among local publications. Further than that, it is in many of its aspects unparalleled in a far wider field. The intent of your diocesan newspaper has been to elevate content and form consistently toward a higher plane. Wider acceptance by Catholic people of the diocese follows inevitably, with attendant broadening of Catholic Press influence.

● NEXT MAY the CATHOLIC COURIER will be host to a national convention of the Catholic Press Association. Publication herein of two special articles dealing with the Catholic Press and its Association takes on added significance in advance of that event. Meanwhile, it shall be the obligation of this newspaper to achieve such growth as will fit it more fully to play an outstanding role in the advancement of the Association and of the Catholic Press at large.
