The CHRONOTHERM

The CHRONOTHERM®

Mark of a Modern
Heating System

A handsome electric
clock and even-ling
temperature regu-
later combined. The
Sixth Sense for heat-
ing comfort.

The new Minneapolis-Honeywell Chronotherm is the "Sixth Sense" in room temperature control. It maintains any desired temperature within a fraction of a degree at all times.

YOU NEED IT BECAUSE . . .

- It senses temperature requirements before they actually become evident.
- It maintains a constant room temperature.
- It saves fuel by preventing needless over-heating. Each extra degree of temperature adds 3.3 per cent to your fuel bill.
- It prevents sickness caused by over-heating and under-heating.
- It automatically lowers temperature at night and restores it in the morning.
- It eliminates "Cold 70 Degrees" caused by air stratification.
- It immediately compensates for heat loss due to wind, cold, seepage or other factors.
- It combines, for the first time, the elements of temperature and time.

Begin now to plan for modern living!

If You Are Interested In HEATING

You should investigate the Health, Comfort and Economy features that make Sub-atmospheric steam heating the approved heating system for Catholic institutions in all sections of the country. Ask for the evidence.

The Dunham Differential Vacuum Heating System

The Heating System that "Changes Gears with the Weather"
"Cool" Steam (132° F) "Warm" Steam (122° to 212° F) "Hot" Steam (above 212° F)

This system not only gives quick, noiseless heat in cold weather but is capable of controlling the heat to meet rapid changes and wide variations in weather which occur in all sections of the country. Differential Heating delivers hot steam, warm steam or cool steam, controlled in direct relation to the demands of the weather, or the requirements of the building. Differential Heating maintains a uniform heat without the over-heating that wastes fuel on the mild days of Winter and in the Fall and Spring months. Proved fuel savings ranging from 28 to 40%, result from the simple and effective operating principles which are exclusive with the Dunham Differential Vacuum Heating System.

We will be glad to talk over your heating problems without any obligation other than the time you give us.
